Forward Looking Statements & Other Disclosure Matters

Forward-Looking Statements - This presentation contains statements which are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements, based upon management's beliefs and expectations as well as on assumptions made by and data currently available to management, appear in a number of places throughout this presentation and include statements regarding, among other things, Signet's results of operation, financial condition, liquidity, prospects, priorities, growth, strategies and the industry in which Signet operates. The use of the words "expects," "intends," "anticipates," "estimates," "predicts," "believes," "should," "potential," "may," "forecast," "objective," "plan" or "target," and other similar expressions are intended to identify forward-looking statements. These forward-looking statements are not guarantees of future performance and are subject to a number of risks and uncertainties, including but not limited to general economic conditions, the merchandising, pricing and inventory policies followed by Signet, the reputation of Signet and its brands, the level of competition in the jewelry sector, the cost and availability of diamonds, gold and other precious metals, regulations relating to consumer credit, seasonality of Signet's business, financial market risks, deterioration in consumers' financial condition, exchange rate fluctuations, changes in consumer attitudes regarding jewelry, management of social, ethical and environmental risks, inadequacy in and disruptions to internal controls and systems, changes in assumptions used in making accounting estimates relating to items such as extended service plans and pensions, and risks relating to Signet being a Bermuda corporation.

For a discussion of these and other risks and uncertainties which could cause actual results to differ materially, see the "Risk Factors" section of the Signet's Fiscal 2011 Annual Report on Form 10-K filed with the U.S. Securities and Exchange Commission on March 30, 2011. Actual results may differ materially from those anticipated in such forward-looking statements. Signet undertakes no obligation to update or revise any forward-looking statements to reflect subsequent events or circumstances, except as required by law.

Non-GAAP Measures - Certain financial measures used during this presentation are considered to be 'non-GAAP financial measures'. For a reconciliation of these to the most directly comparable GAAP financial measures, please refer to Signet's press release dated March 30, 2011& May 26, 2011 available on Signet's website, www.signetjewelers.com or to the appendix of this presentation.

Correction of Immaterial Error – During the third quarter of Fiscal 2011, Signet changed the period of revenue and cost deferral for its extended service plans. Signet has adjusted in this quarter for the affected prior periods. Please refer to the press release dated May 26, 2011 available on Signet's website, www.signetjewelers.com for additional information regarding the correction of the immaterial error.

Free Cash Flow

Free cash flow is a “non-GAAP financial measure” defined as the net cash provided by operating activities less net cash flows used in investing activities. Management considers that it is helpful in understanding how the business is generating cash from its operating and investing activities that can be used to meet the financing needs of the business. Free cash flow does not represent the residual cash flow available for discretionary expenditure.

	Q1 Fiscal 2012 $million	Q1 Fiscal 2011 $million
Net cash provided by operating activities	105.3	184.2
Net cash used in investing activities	(12.9)	(6.3)
