

Embrace School Choice: Digital Academy of Florida Now Enrolling For 2024-2025 School Year

2/22/2024

JACKSONVILLE, Fla.--(BUSINESS WIRE)-- Enrollment is now open at **Digital Academy of Florida** (DAOF) for the upcoming 2024-2025 school year. Prospective students and their families are invited to join the statewide online public school's dynamic learning community that comes at no cost to families.

DAOF offers a tailored, educational experience that uses innovative technology and a rich curriculum from K12 that aims to unite students and parents in a collaborative learning environment where personal interests and passions are encouraged. With a full suite of academic and school support services, the academy is dedicated to equipping parents and students with strategies and techniques that help meet potential needs.

Parents of Pinellas County student, Emily-Brooke, share how DAOF has transformed their daughter's educational journey after a harrowing experience with a traditional brick-and-mortar. "Emily-Brooke has excelled with cyber learning; this will be her third year with straight A's. She doesn't have to worry about other kids, bullying, or being scared to go to school. There's no judgment at DAOF, and that's a huge thing. The flexibility allows us to have a lot more family time, including educational field trips like going to the zoo."

In addition to core courses, DAOF offers career-focused classes aimed at enabling your child to delve into various industries including Digital Media, Business Management, Health Science, Hospitality, and more, that can pave the path toward a fulfilling career. The opportunity to explore different paths can prepare students to dive into a career right out of high school or help them make a well-informed decision on a college major.

"At DAOF, we believe that every student can flourish when given the opportunity," shares Laura Downes, Director of Schools at DAOF. "We believe in thinking differently, inspiring students, and partnering with our community. Creating an environment that welcomes every student regardless of individual needs, DAOF is the ideal choice for

families looking for an innovative and customized approach to education.”

The academy’s curriculum is powered by Stride, Inc., an education leader with more than 20 years of experience delivering online education to students nationwide. Stride has worked with schools and districts across all 50 states to help develop local solutions to meet personalized online and blended learning goals.
