

Enrollment at Florida Cyber Charter Academy Now Open For 2024-2025 School Year

2/21/2024

JACKSONVILLE, Fla.--(BUSINESS WIRE)-- Enrollment is now open at **Florida Cyber Charter Academy** (FLCCA) for the upcoming 2024-2025 school year. Prospective students and their families are invited to join the full-time, online public school's innovative learning community that comes at no cost to families throughout Florida.

Serving students in grades K-12, FLCCA offers students an education option designed to help them reach their full potential. Florida families and students choose online learning for a variety of reasons, including advanced learning, a bullying-free environment, and the flexibility to support extracurricular pursuits or medical needs while maintaining a focus on academics. FLCCA's online platform allows students to pursue their academic goals in a supportive environment and at an appropriate pace for their learning style.

FLCCA offers a dedicated and passionate community of students, families, teachers, administration, and governing board who are deeply invested in pursuing academic excellence for all. With a curriculum that's designed to let students find the learning style that works best for them, each live, online classroom offers engaging and relevant lessons that build on your child's interests and abilities.

"The brick-and-mortar school model serves many students well. But every student has an individual learning style — and each family has different commitments," says Jerry Hulshult, Educational Director at FLCCA. "Online schools allow enrolled students to learn from their own homes and on their terms. Most follow a mix of live, virtual lessons and offline activities that can be tailored to each learner. Students can study at home or wherever there's an internet connection. This eliminates the need for long commutes, leaving more time for learning."

FLCCA believes that all students should wake up excited to learn which is why they utilize a curriculum from K12. With core subjects such as mathematics, language arts, science, and social studies, the cyber academy also offers a

wide range of elective courses and extracurricular activities.

For more information and to enroll, please visit **Florida Cyber Charter Academy**.

The academy's curriculum is powered by Stride, Inc., an education leader with more than 20 years of experience delivering online education to students nationwide. Stride has worked with schools and districts across all 50 states to help develop local solutions to meet personalized online and blended learning goals.
