

# Galvanize to Aid Defense Logistics Agency's Digital Business Transformation as Global Supply Chain Leader

11/16/2021

DENVER--(BUSINESS WIRE)-- **Galvanize** – a subsidiary of **Stride, Inc.** (NYSE: LRN) – has announced a partnership with the Defense Logistics Agency (DLA), the combat logistics support agency responsible for the global supply chain of the U.S. military worldwide. As one of the nation's leading providers of software engineering and data science training, Galvanize will train DLA personnel in Data Analytics and Data Science in support of DLA's digital business transformation to become a more data-literate organization.

With about 26,000 civilian and military employees around the globe, DLA's partnership with Galvanize signals an acknowledgement of the need to stay at the forefront of data analytics usage and deployment by increasing the technical skills and capabilities of its workforce. Through its objective-based education methods and world-class instructors in Data Analytics and Data Science, Galvanize will support the technical training and upskilling of DLA personnel over the next year.

"From manufacturing to distribution, the Defense Logistics Agency is at the forefront of an increasingly data-driven global logistics landscape," said Bill Blackstone, Executive Vice President of Operations at Galvanize. "We are proud to be a partner in maximizing the impact and efficiency of their mission to deliver quality and proactive global logistics to service members around the world."

In addition to its work with DLA, Galvanize is already a leading upskilling technology training resource for active duty U.S. military personnel. In the summer of 2021, the Defense Department awarded Galvanize a **Phase III SBIR IDIQ Contract**, and the company has already graduated hundreds of active duty service members through its coding and data science bootcamps. Additionally, Galvanize has collaborated with the Veteran's Administration on

the Veteran Employment Through Technology Education Courses (**VET TEC**) program to train hundreds of Veterans, and offers a Web Development Immersive course exclusively to transitioning active duty service members through its **Operation Level Up** program.
