

# Insight Academy of Arizona Becomes First Online Career Program Approved by State DOE

10/11/2021

GLENDALE, Ariz.--(BUSINESS WIRE)-- Insight Academy of Arizona (**ISAZ**), a full-time online school serving students throughout the state of Arizona, becomes the first 100% online school recognized by the Arizona Department of Education for their Career Prep program.

The ISAZ Career Prep program allows students in middle- and high-school to jump-start their future by taking career-focused electives to explore job options in classes such as Business, Health & Human Services, and Information Technology.

“This approval from the state means so much because it recognizes the well-rounded education, we are providing our students here at ISAZ,” said Dr. Erica Young-Jackson, Stride Career Prep CRE Administrator. “But more importantly, our program cultivates the potential in each individual student by integrating rigorous virtual learning with relevant work-based experiences that inspires, guides, empowers and prepares them for the challenges of post-secondary education and a globally competitive workforce.”

In order to be approved for this program, schools must show the state DOE that it can deliver a coherent course sequence, involve related industry in decision making through advisory committees and partnerships, is inclusive for all special populations, ensure that Professional Skills and work-based learning are embedded into the program, and more.
