The Association of Education Publishers (AEP) awards recognize the finest achievements in educational products used by teachers, parents, and students. Honoring excellence and innovation in the education community, the awards are the longest running and most highly regarded recognition program in the industry.

"We are extremely excited and proud to win an AEP Award," said Maria Szalay, Executive Vice President of Product Development for K12 Inc. "K12 offers outstanding, highly effective curriculum that enables mastery of concepts for all types of learners. Winning this award is a result of the efforts of K12's talented and dedicated curriculum team who create innovative and high quality education content for students and teachers."

The K12 curriculum uses a combination of online lessons and traditional materials. Online lessons blend text, photos, illustration, animation, audio, and interactivity, giving students an engaging educational experience. The 2012 award winning *Fundamentals of Geometry and Algebra* curriculum allows students to enhance computational and problem-solving skills while learning topics in algebra, geometry, probability, and statistics. Students learn multiple representations for communicating information, such as graphs on the coordinate plane, statistical data and displays, as well as the results of probability and sampling environments.

More than 2,000 school districts in all 50 states use courses, technology and education services provided by K12 Inc. K12's curriculum and academic programs have won numerous national awards and recognitions for quality, innovation and excellence.

About K12 Inc.
