Curtiss-Wright Receives Contract From South Korea’s Hanwha Corporation

For Towed-Array Handling Systems for South Korean Shipbuilding Program

PARSIPPANY, N.J., Feb. 16, 2011 (GLOBE NEWSWIRE) -- Curtiss-Wright Corporation (NYSE:CW) today announced that it has received a multi-million dollar contract from Hanwha Corporation of South Korea for the design and manufacture of towed-array handling systems for the South Korean shipbuilding program.

“This contract marks the beginning of an important relationship between Curtiss-Wright and Hanwha Corporation,” said Martin R. Benante, Chairman and CEO of Curtiss-Wright Corporation. “We are very pleased to supply our innovative towed-array handling technology to South Korea's shipbuilding program.”

INDAL Technologies, a business unit of Curtiss-Wright's Flow Control segment, based in Mississauga, Ontario, Canada will perform the work for this contract, with the first delivery scheduled for October 2014.

Curtiss-Wright's capabilities include customized cable handling systems designed to meet varied customer requirements for military, scientific and commercial applications. With systems that operate safely in high sea states and at maximum ship speeds, Curtiss-Wright is recognized as a world leader in the design and supply of cable handling systems for both surface and submarine applications.
