Curtiss-Wright Board of Directors Increases Share Repurchase Program and Authorizes Issuance of New Debt

This significant increase in our share repurchase authorization reflects our continued confidence in the company's ability to deliver strong revenue and profitability growth, along with solid free cash flow generation," said Mr. Benante. "We remain committed to a disciplined capital deployment strategy that consists of reinvesting in our business and growing through acquisitions, combined with our continued commitment to return cash to shareholders through solid earnings per share growth, dividends and share repurchases."

Shares may be repurchased by the company at its discretion in the open market or through privately negotiated transactions, and timing may vary depending on prevailing market conditions, alternative uses of capital and other factors. There is no fixed termination date for the repurchase program.

About Curtiss-Wright Corporation

Curtiss-Wright Corporation is an innovative engineering company that provides highly engineered, critical function products, systems and services in the areas of flow control, motion control and metal treatment to the defense, energy and commercial/industrial markets. The legacy company of Glenn Curtiss and the Wright brothers, Curtiss-Wright has a long tradition of design and manufacturing innovation along with long-standing customer relationships. This press release contains forward-looking statements made pursuant to the Safe Harbor provisions of the Private Securities Litigation Reform Act of 1995. Such statements, including, among other things, statements regarding future events (such as statements regarding a dividend, the return of cash to shareholders, and Curtiss-Wright Corporation's ability to deliver strong revenue and profitability growth, along with solid free cash flow generation) and the future financial performance of Curtiss-Wright Corporation involve risks and uncertainties that could cause actual results to differ materially from those expressed or implied and could cause volatility in the pricing of Curtiss-Wright's common stock. Such forward looking statements are not considered historical facts or an indication of future performance of the Corporation's common stock. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. Such risks and uncertainties include, but are not limited to: a reduction in anticipated orders; an economic downturn; changes in competitive marketplace and/or customer requirements; a change in US and Foreign government spending; an inability to perform customer contracts at anticipated cost levels; and other factors that generally affect the business of aerospace, defense contracting, marine, electronics and industrial companies. Please refer to the Company's current SEC filings under the Securities Exchange Act of 1934, as amended, for further information.
