

REPORT OF THE SUPERVISORY BOARD

Dear Shareholders,

In the financial year 2017, voxeljet AG focused further on innovation and expansion of international structures in order to prepare for the next step in the Company's growth. It concentrated on the further development and completion of its product range and its range of services, activities in connection with the expansion of its subsidiaries and the extension of infrastructure and systems. Substantial innovation works, mixed trends in regional markets, delays in establishing operations in China and in year-end deliveries had an impact on the financial targets at group level. As a consequence, results at group level were lower than expected.

The current Supervisory Board was appointed by the Company's 2014 Annual General Meeting on 27 May 2014. The ordinary term of office of all elected members ends at the close of the Annual General Meeting that resolves on the discharge of the members of the Supervisory Board for the financial year 2018. The composition of the Supervisory Board changed in the financial year 2017. The Management Board informed the Supervisory Board in written and oral reports regularly, comprehensively and in a timely manner about company planning, the course of business, strategic development and the current situation of voxeljet AG. In this regard, the Management Board also addressed deviations in the actual course of business from forecasts and explained the deviations as well as corrective measures. The

subject matter and scope of the Management Board's reporting meet the requirements set by the Supervisory Board. In addition to the reports, the Supervisory Board received additional information from the Management Board. In particular, the Management Board was available during the Supervisory Board meetings to discuss and answer the Supervisory Board's questions. Any transactions requiring the Supervisory Board's consent were discussed with the Management Board and examined in detail, with the focus generally being placed on benefits and effects of the respective transaction on the Company's development.

The chairman of the Supervisory Board, and in some cases the entire Supervisory Board, was also informed in detail between the meetings of the Supervisory Board and its committees. For example, the strategy, the current development and situation of business and voxeljet AG's risk management system as well as key individual topics and decisions were addressed in regular discussions between the Management Board and the Chairman of the Supervisory Board who, in turn, informed the other Supervisory Board members in a timely manner. The auditor audited the HGB annual financial statements and the management report of voxeljet AG as well as the IFRS consolidated financial statements, in each case including the accounting, and issued an unqualified audit opinion in each case.

After the Audit Committee closely cooperated with the auditors during the audit process and was repeatedly informed about the current status of the audit and the audit results, the HGB annual financial statements prepared by the Management Board, including the management report, the IFRS consolidated financial statements and KPMG AG's reports on the audit of the HGB annual financial statements/IFRS consolidated financial statements were discussed in detail by the Audit Committee with representatives of KPMG AG at its meeting on 29 March 2018.
