**14** Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ▶ In 2021, Archrock, Inc. (AROC) paid the following cash distributions per share to the common shareholders of record on the specified dates:

Date of Record:	Amount per Share:	Date Paid:
February 8, 2021	\$0.145	February 16, 2021
May 10, 2021	\$0.145	May 17, 2021
August 9, 2021	\$0.145	August 16, 2021
November 9, 2021	\$0.145	November 16, 2021

**15** Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ▶ AROC has determined that 100 percent of each of the cash distributions it paid in 2021 will be classified as non-dividend distributions and treated as a return of capital to the extent of the shareholders' tax basis in AROC shares. Any amount of non-dividend distributions received by a shareholder that is in excess of that shareholder's tax basis in AROC shares will be taxed as a capital gain for U.S. income tax purposes.

**16** Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ▶ Based upon calculations using reasonable assumptions, AROC does not believe that it had any accumulated earnings and profits as of the end of 2020 and has estimated that it had no current earnings and profits in 2021.
