Independent Auditors' Report

The Board of Directors
The Travelers Companies, Inc. and subsidiaries:

We have audited the accompanying financial statements of First Floridian Auto and Home Insurance Company, which comprise the balance sheet (statutory basis) as of December 31, 2018 and 2017, and the related statements of income (statutory basis), changes in capital and surplus (statutory basis), and cash flow (statutory basis) for the years then ended, and the related notes to the financial statements (statutory basis).

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with statutory accounting practices prescribed or permitted by the Florida Office of Insurance Regulation. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 2 to the financial statements, the financial statements are prepared by First Floridian Auto and Home Insurance Company using statutory accounting practices prescribed or permitted by the Florida Office of Insurance Regulation, which is a basis of accounting other than U.S. generally accepted accounting principles. Accordingly, the financial statements are not intended to be presented in accordance with U.S. generally accepted accounting principles.

The effects on the financial statements of the variances between the statutory accounting practices described in Note 2 and U.S. generally accepted accounting principles, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the variances between statutory accounting practices and U.S. generally accepted accounting principles discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles paragraph, the financial statements referred to above do not present fairly, in accordance with U.S. generally accepted accounting principles, the financial position of First Floridian Auto and Home Insurance Company as of December 31, 2018 and 2017, or the results of its operations or its cash flows for the years then ended.

Opinion on Statutory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the admitted assets, liabilities, and capital and surplus of First Floridian Auto and Home Insurance Company as of December 31, 2018 and 2017, and the results of its operations and its cash flow for the years then ended, in accordance with statutory accounting practices prescribed or permitted by the Florida Office of Insurance Regulation described in Note 2.

Other Matter

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information included in the Summary Investment Schedule, Supplemental Investment Risks Interrogatories, and Property and Casualty Interrogatories Relating to Reinsurance is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Florida Office of Insurance Regulation. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

FIRST FLORIDIAN AUTO AND HOME INSURANCE COMPANY

NOTES TO FINANCIAL STATEMENTS (statutory basis)

1. ORGANIZATION AND NATURE OF OPERATIONS

First Floridian Auto and Home Insurance Company (the Company) is a wholly-owned subsidiary of The Travelers Indemnity Company (Indemnity), which in turn is an indirect wholly-owned subsidiary of The Travelers Companies, Inc. (TRV).

The following depicts via indentations, the relationship at December 31, 2018 of the Company to TRV, a publicly traded insurance holding company:

The Travelers Companies, Inc.
Travelers Property Casualty Corp.
Travelers Insurance Group Holdings Inc.
The Travelers Indemnity Company
First Floridian Auto and Home Insurance Company

The Company is a multiline property-casualty insurer licensed only in Florida, primarily offering personal automobile and homeowners insurance, mainly distributed through independent agents located throughout Florida. The Company is domiciled in the State of Florida and is subject to regulation and supervision by the Florida Office of Insurance Regulation.

Catastrophe Exposure:

The Company has geographic exposure to catastrophe losses, which can be caused by a variety of events, including, among others, hurricanes, tornadoes and other windstorms, earthquakes, hail, wildfires, severe winter weather, floods, tsunamis, and other naturally-occurring events, such as solar flares. Catastrophes can also result from terrorist attacks and other intentionally destructive acts including those involving nuclear, biological, chemical, radiological events, cyber events, explosions and destruction of infrastructure. The incidence and severity of catastrophes are inherently unpredictable. The extent of losses from a catastrophe is a function of both the total amount of insured exposure affected by the event and the severity of the event. Most catastrophes are restricted to small geographic areas; however, hurricanes and earthquakes may produce significant damage in larger areas, especially those areas that are heavily populated. The Company generally seeks to manage its exposure to catastrophes through individual risk selection and the purchase of catastrophe reinsurance.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- A. The Company prepares its statutory financial statements in conformity with the accounting practices prescribed or permitted by the State of Florida. The State of Florida requires that insurance companies domiciled in Florida prepare their statutory basis financial statements in accordance with the National Association of Insurance Commissioners (NAIC) *Accounting Practices and Procedures Manual*, subject to any deviations prescribed or permitted by the Florida Insurance Commissioner. The Company does not apply any statutory accounting practices that would be considered a permitted practice in its financial statements.
- B. The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amounts of revenue and losses and expenses during the reporting period. Actual results could differ from those estimates.
- C. Statutory accounting practices differ in certain respects from U.S. Generally Accepted Accounting Principles (GAAP). The items of greatest significance are as follows:

Nonadmitted Assets: Certain assets are designated as nonadmitted, including uncollected agents' balances over 90 days past due and a portion of deferred tax assets. Nonadmitted assets are excluded from the statutory balance sheet and changes in such amounts are charged or credited directly to unassigned funds, a component of surplus as regards policyholders (policyholders' surplus).

Policy Acquisition Costs: The costs of acquiring both new and renewal insurance business are charged to income as incurred. Under GAAP, such costs are deferred and amortized on a pro rata basis over the contract periods in which the related premiums are earned.

Reinsurance: Reserves for losses, loss adjustment expenses (LAE) and unearned premiums ceded to reinsurers have been reported as reductions of the related reserves rather than as assets as required by GAAP.

Under statutory accounting, a liability is established for unsecured unauthorized reinsurance recoverables. Under GAAP, the reinsurance recoverable asset is reported net of an allowance for estimated uncollectible reinsurance recoverables.

Investments: Under GAAP, bonds are categorized based on positive intent as "trading securities" (reported at fair value, with changes in fair value reported in earnings), "available for sale" securities (reported at fair value, with changes in fair value reported in equity), or "held to maturity" securities (reported at amortized cost). Under statutory reporting, bonds are valued according to statutory requirements as described below.

Deferred Tax Assets: Under statutory accounting practices, gross deferred tax assets are admitted subject to certain restrictions. The change in net deferred income tax is reported as a charge or credit directly to unassigned funds. Under GAAP, this change is reported as an adjustment to income.

FIRST FLORIDIAN AUTO AND HOME INSURANCE COMPANY

NOTES TO FINANCIAL STATEMENTS (statutory basis)

D. Other significant statutory accounting policies are as follows:

Premiums are recognized as revenues pro rata over the policy period. Unearned premium reserves represent the unexpired portion of policy premiums, net of reinsurance.

Realized investment gains and losses are included as a component of net income based upon specific identification of the investments sold on the trade date net of capital gains tax. Impairments are charged directly to net realized capital gains (losses) and are determined based on the continual review of investment portfolio valuations.

Unrealized investment gains and losses, net of deferred taxes, are credited or charged directly to unassigned funds.

Amounts recoverable from reinsurers are estimated in a manner consistent with the loss liability associated with the reinsured business. The Company evaluates and monitors the financial condition of its reinsurers under voluntary reinsurance arrangements to minimize its exposure to significant losses from reinsurance insolvencies.

The provision for federal income taxes is comprised of two components: current income taxes and deferred income taxes. Deferred federal income taxes arise from changes during the year in cumulative temporary differences between the statutory basis and tax basis of assets and liabilities. Gross deferred tax assets are reduced by a statutory valuation allowance adjustment if, based on the weight of available evidence, it is more likely than not that some portion or all of the gross deferred tax assets will not be realized.

The Company utilizes anticipated investment income as a factor in the premium deficiency calculation.

Property-casualty reserves are established for loss and LAE and represent management's estimate of the ultimate cost of all unpaid reported and unreported claims incurred and related expenses. In establishing loss and LAE reserves, the Company also takes into account estimated recoveries, reinsurance, salvage and subrogation. The loss and LAE reserves are reviewed regularly by qualified actuaries employed by the Company. The Company continually refines its loss and LAE reserve estimates in a regular ongoing process as historical loss experience develops and additional claims are reported and settled. Because establishment of loss and LAE reserves is an inherently uncertain process involving estimates, currently established reserves may change. The Company reflects adjustments to loss and LAE reserves in the period in which the estimates change. Such changes in estimates could occur in a future period and may be material to the Company's net income in such period.

Invested assets are valued according to statutory requirements and the bases of valuation adopted by the NAIC as follows:

Cash equivalents consist of short-term, highly liquid investments with original maturities of three months or less.

Bonds generally are stated at amortized cost, except bonds that are defined by the NAIC as non-investment grade (NAIC designation 3-6) which are stated at the lower of amortized cost or fair value. Amortization is calculated using the constant yield method.

For a discussion of the valuation basis and adjustment methodology for loan-backed securities and structured securities, see Note 3B.

The carrying value of bonds is generally amortized cost, except bonds that are rated by the NAIC as non-investment grade (i.e. NAIC designation 3-6), which are reported at the lower of amortized cost or fair value. Fair value amounts disclosed are generally provided by the Securities Valuation Office (SVO) or, if not available from the SVO, by third party pricing services.

The carrying value and fair value of bonds at December 31, 2018, by maturity are shown below, separating out loan-backed and structured securities. Expected maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

| (in thousands) | Carrying Value | Fair Value |
|-------------------------------|-------------------|-------------------|
| One year or less | \$ 20,756 | \$ 20,805 |
| Over 1 year through 5 years | 96,515 | 96,018 |

| Structured securities | 317 | 331 |
| Total bonds | <u>\$ 216,390</u> | <u>\$ 217,045</u> |

In 2018, proceeds from sales of bonds were \$3.3 million. Gross gains and gross losses of \$53 thousand and \$10 thousand, respectively, were realized on those sales. There were no sales of bonds in 2017.

At December 31, 2018 and 2017, the Company had \$359 thousand and \$362 thousand, respectively, of securities on deposit at financial institutions in Florida pursuant to requirements set forth by the Florida Office of Insurance Regulation.

Investment income related to prepayment penalties and/or acceleration fees recognized by the Company on bonds called by various issuers during 2018 and 2017 was as follows:

| | 2018 | 2017 |
|--|--------|--------|
| Number of unique CUSIPs | 6 | 5 |
| Aggregate amount of investment income (in thousands) | \$ 101 | \$ 234 |

B. Loan-Backed and Structured Securities:

The Company applies the retrospective method of revaluing loan-backed securities. The Company's loan-backed securities are revalued quarterly using the constant effective yield method which includes an adjustment for estimated principal prepayments, if any. The effective yield used to determine amortization for these securities is recalculated and adjusted periodically based upon actual historical and/or projected future cash flows. The Company changes from the retrospective to prospective method for valuing the securities when an other-than-temporary impairment has been recorded.

For collateralized mortgage obligations, asset-backed securities and pass-through certificates prepayment assumptions are adjusted periodically.

Fair value amounts disclosed are generally provided by the SVO or, if not available from the SVO, by third party pricing services.

The Company determines an other-than-temporary impairment by utilizing discounted cash flow modeling to determine the present value of the security and comparing the present value with the amortized cost of the security. If the amortized cost is greater than the present value of the expected cash flows, the difference is considered a credit loss and recognized in net realized capital gains (losses). The Company estimates the present value of the security by projecting future cash flows of the assets underlying the securitization, allocating the flows to the various tranches based on the structure of the securitization, and determining the present value of the cash flows using the effective yield of the security at the date of acquisition (or the most recent implied rate used to accrete the security if the implied rate has changed as a result of changes in expected cash flows). The Company incorporates levels of delinquencies, defaults and severities as well as credit attributes of the remaining assets in the securitization, along with other economic data, to arrive at its best estimate of the parameters applied to the assets underlying the securitization.

FIRST FLORIDIAN AUTO AND HOME INSURANCE COMPANY

NOTES TO FINANCIAL STATEMENTS (statutory basis)

The Company had no loan backed-or structured securities with other-than-temporary impairments recognized in 2018.

C. Concentrations:

At December 31, 2018 and 2017, the Company was not exposed to any concentration of credit risk of a single issuer greater than 5% of policyholders' surplus of the Company.

The Company seeks to mitigate credit risk by actively monitoring the creditworthiness of counterparties, obtaining collateral as deemed appropriate and applying controls that include credit approvals, limits of credit exposure and other monitoring procedures.

D. Other-Than-Temporary Impairment of Certain Securities:

The Company recognizes an impairment loss when an invested asset's value declines below cost, adjusted for accretion, amortization and previous other-than-temporary impairments (new cost basis), and the change is deemed to be other-than-temporary, or if it is determined that the Company will not be able to recover all amounts due pursuant to the issuers' contractual obligations prior to sale or maturity. When the Company determines that an invested asset is other-than-temporarily impaired, the invested asset is written down to fair value for securities other than loan-backed and structured securities, and the amount of the impairment is included in earnings as a realized capital loss. The fair value then becomes the new cost basis of the investment and any subsequent recoveries in fair value are recognized at disposition.

The Company recognizes a realized loss when impairment is deemed to be other-than-temporary even if a decision to sell an invested asset has not been made. When the Company intends to sell a temporarily impaired invested asset and the Company does not expect the fair value of the invested asset to fully recover prior to the expected time of sale, the invested asset is deemed to be other-than-temporarily impaired in the period in which the decision to sell is made.

Factors considered in determining whether a decline is other-than-temporary include the Company's ability and intent to hold the investment for a period of time sufficient to allow for any anticipated recovery, the length of time and the extent to which fair value has been below cost and the financial condition and near-term prospects of the issuer.

The Company's process for reviewing invested assets for impairments during any quarter includes the following:

- Identification and evaluation of investments that have possible indications of other-than-temporary impairment, which includes an analysis of investments with gross unrealized investment losses that have fair values less than 80% of cost for six consecutive months or more;
- Review of portfolio manager(s) recommendations for other-than-temporary impairments based on the investee's current financial condition, liquidity, near-term recovery prospects and other factors;
- Consideration of evidential matter, including an evaluation of factors or triggers that would or could cause individual investments to qualify as having other-than-temporary impairments; and
- Determination of the status of each analyzed investment as other-than-temporary or not, with documentation of the rationale for the decision.

The following tables summarize, for all bonds in an unrealized loss position at December 31, 2018 and 2017, the aggregate fair value and gross unrealized loss by length of time those securities that have been continuously in an unrealized loss position. The gross unrealized loss is the amount by which cost or amortized cost exceeds fair value for securities rated in all NAIC designations.

4. FAIR VALUE MEASUREMENTS

The Company's estimates of fair value for financial assets and financial liabilities are based on the framework established in the fair value accounting guidance. The framework is based on the inputs used in valuation, gives the highest priority to quoted prices in active markets, and requires that observable inputs be used in the valuations when available. The disclosure of fair value estimates in the fair value accounting guidance hierarchy is based on whether the significant inputs into the valuation are observable. In determining the level of the hierarchy in which the estimate is disclosed, the highest priority is given to unadjusted quoted prices in active markets and the lowest priority to unobservable inputs that reflect the Company's significant market assumptions. The level in the fair value hierarchy within which the fair value measurement is reported is based on the lowest level input that is significant to the measurement in its entirety. The three levels of the hierarchy are as follows:

- Level 1 - Unadjusted quoted market prices for identical assets or liabilities in active markets that the Company has the ability to access.
- Level 2 - Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or valuations based on models where the significant inputs are observable (e.g., interest rates, yield curves, prepayment speeds, default rates, loss severities, etc.) or can be corroborated by observable market data.
- Level 3 - Valuations based on models where significant inputs are not observable. The unobservable inputs reflect the Company's own assumptions about the inputs that market participants would use.

A. At December 31, 2018 and 2017 the Company had no securities measured and reported at fair value.

B. The Company uses various financial instruments in the normal course of its business. Certain insurance contracts are excluded by SSAP No. 100, *Fair Value*, and, therefore, are not included in the amounts discussed.

The carrying values of cash, cash equivalents and investment income accrued approximate their fair values.

C. The following tables provide the aggregate fair value and reported aggregate admitted asset value by type of financial instrument; and the hierarchy level in which the fair values fall (in thousands):

5. Deferred income taxes do not include any benefit from investment tax credits.

6. Deferred income taxes do not include a benefit from net operating losses.

7. During the fourth quarter of 2017, the Company recorded provisional amounts due under the transition rule relating to the change in discounting of incurred losses, based on information available at December 31, 2017.

In November 2018, the U.S. Treasury issued proposed regulations which would establish the interest rate and discounting methodology to be used in determining the tax discount on loss and loss adjustment reserves under the Tax Cuts and Jobs Act of 2017 (TCJA). The proposed regulations significantly reduce the gross deferred tax assets and liabilities related to the transition rule for discounting of reserves and reduced the estimated additional tax payments associated with the transition rule over the eight years beginning in 2018.

The Company estimated the amounts payable related to the transition rules for discounting of loss reserves using the regulations proposed by the U.S. Treasury during 2018. These amounts are subject to change once the final regulations are issued, which is expected to occur in 2019.

8. There are no adjustments to gross deferred tax assets because of a change in circumstances that causes a change in judgment about the realizability of the related deferred tax asset.

| Change in net deferred taxes | (51) |
| Total statutory income tax | <u>\$ 279</u> |
| Effective tax rate | 9.6% |

D. 1. The Company has no net operating loss carryforward available for tax purposes.

2. Current and prior year federal income taxes available for recoupment in the event of future net losses are as follows (in thousands):

| | |
|--------------------|--------|
| 2018 Total | \$ 244 |
| 2017 Total | - |
| 2016 Capital Gains | 288 |

3. The Company has no protective tax deposits with the Internal Revenue Service (IRS) under Section 6603 of the Internal Revenue Code.

E. 1. The Company is included in a consolidated federal income tax return with its ultimate parent company, TRV.

2. The Company is a party to a tax allocation agreement that sets forth the manner in which total consolidated federal income tax is allocated among companies included in the consolidated return. Member companies included in the TRV consolidated return are allocated taxes annually based upon their separate taxable income. Companies with a current federal income tax receivable from TRV will receive settlement to the extent that such receivables are for tax benefits that have been utilized in the consolidated federal income tax return. Member companies are reimbursed by TRV in the event the IRS levies upon a member's assets for unpaid taxes in excess of the amount specifically allocated to a member.

In the event that the consolidated group develops an Alternative Minimum Tax (AMT), each company with an AMT on a separate company basis will be allocated a portion of the consolidated AMT. Settlement of the AMT will be made in the same manner and timing as the regular federal income tax. For 2017, the consolidated group is not in an AMT position. For 2018 and forward, the TCJA repealed the AMT.

F. The Company does not believe it is reasonably possible that the liability related to any federal or foreign tax loss contingencies may significantly increase within the next 12 months.

8. CAPITAL AND SURPLUS AND DIVIDEND RESTRICTIONS

The Company has 10,000,000 shares of common stock authorized, 5,000,000 shares issued and outstanding with a par value of \$1 per share.

On June 28, 2018 and June 20, 2017, the Company paid ordinary dividends of \$8.5 million and \$4.3 million, respectively, to its parent company, Indemnity. Timely notice of each dividend was provided to the Florida Office of Insurance Regulation.

The Company is subject to laws of the State of Florida that limit dividends payable to its stockholder. Without approval of the Florida Office of Insurance Regulation (the Office), dividends are limited to formula amounts based on factors, such as surplus, net operating profits and realized capital gains as presented in the latest filed financial statements. As of December 31, 2018, the amount that the Company may distribute during 2019 without prior approval of the Office is \$18.2 million. The amount payable during 2019 may change during the year, based upon the subsequent period quarterly statements filed with the Office.

There are no restrictions on the use of the Company's unassigned funds and such funds are held for the benefit of the shareholder, except for the dividend restrictions indicated above.

9. LIABILITIES, CONTINGENCIES AND ASSESSMENTS

A. Assessments:

The Company is subject to guaranty association and other insurance-related assessments. At December 31, 2018, the Company has no known or estimable assessment liability.

B. Claims Related Extra-Contractual Obligation and Bad Faith Losses Stemming from Lawsuits:

The Company paid \$25 thousand in 2018 on one claim to settle claims related extra-contractual obligations or bad faith claims stemming from lawsuits. This claim count information is disclosed on a per claim direct basis.

C. All Other Contingencies:

In the ordinary course of business, the Company is a defendant or codefendant in various litigation matters.

10. REINSURANCE

The Company participates in reinsurance in order to limit losses, minimize exposure to large risks, provide additional capacity for future growth, and to effect affiliate business-sharing arrangements. The Company remains primarily liable as the direct insurer on all risks reinsured.

A. Unsecured Reinsurance Recoverables:

The Company did not have any unsecured aggregate recoverables for ceded losses, loss adjustment expenses and unearned premiums recoverable from any reinsurer at December 31, 2018, that exceeded 3% of the Company's policyholders' surplus.

11. RETIREMENT PLANS, DEFERRED COMPENSATION, POSTEMPLOYMENT BENEFITS AND COMPENSATED ABSENCES AND OTHER POSTRETIREMENT BENEFIT PLANS

The Company accounts for pension and postretirement benefit expenses as consolidated/holding company plans under SSAP No. 102, *Pensions* and SSAP No. 92, *Postretirement Benefits Other Than Pensions*.

A. Consolidated/Holding Company Plans:

1. Employee Retirement Plans:

The Company participates in a qualified noncontributory defined benefit pension plan sponsored by TRV that provides benefits, primarily under a cash balance formula, for substantially all employees of the Company and its property-casualty affiliates. In addition the Company participates in nonqualified defined benefit pension plans sponsored by TRV which cover certain highly-compensated employees of the Company and its property-casualty affiliates. The Company has no legal obligation for benefits under these plans. The Company is charged for its allocable share of pension expense for these plans based on its allocated and/or direct salary costs in accordance with an expense allocation agreement. The Company's allocated share of the pension expense was \$200 thousand and \$221 thousand for 2018 and 2017, respectively.

2. Postretirement Benefit Plan:

The Company participates in a postretirement health and life insurance benefit plan sponsored by TRV for employees of the Company and its property-casualty affiliates that satisfy certain age and service requirements and for certain retirees. The Company has no legal obligation for benefits under this plan. The Company is charged for its allocable share of postretirement benefit expense for this plan based on its allocated and/or direct salary costs in accordance with an expense allocation agreement. The Company's allocated share of the postretirement benefit expense was \$6 thousand in both 2018 and 2017.

3. 401(k) Savings Plan:

The Company participates in a 401(k) savings plan sponsored by TRV for substantially all employees of the Company and its property-casualty affiliates. The Company has no legal obligation for benefits under this plan. The Company is charged for its allocable share of expense for this plan based on its allocated and/or direct salary costs in accordance with an expense allocation agreement. The Company's allocated share of the 401(k) savings plan expense was \$259 thousand and \$269 thousand for 2018 and 2017, respectively.

B. Incentive Plans:

The Company participates in a share-based incentive compensation plan, The Travelers Companies, Inc. Amended and Restated 2014 Stock Incentive Plan (the 2014 Incentive Plan), the purposes of which are to align the interests of TRV's non-employee directors, executive officers and other employees with those of TRV's shareholders and to attract and retain personnel by providing incentives in the form of share-based awards. The 2014 Incentive Plan permits grants of nonqualified stock options, incentive stock options, stock appreciation rights, restricted stock, restricted stock units, deferred stock, deferred stock units, performance awards and other share-based or share-denominated awards with respect to TRV's common stock. TRV has a policy of issuing new shares to settle the exercise of stock option awards and the vesting of other equity awards.

The number of shares of TRV's common stock initially authorized for grant under the 2014 Incentive Plan was 10 million shares. In May 2017 and 2016, TRV's shareholders authorized an additional 2.5 million and 4.4 million shares of TRV's common stock, respectively, for grant under the 2014 Incentive Plan. The following are not counted towards the combined 16.9 million shares available and will be available for future grants under the 2014 Incentive Plan: (i) shares of common stock subject to awards that expire unexercised, that are forfeited, terminated or canceled, that are settled in cash or other forms of property, or otherwise do not result in the issuance of shares of common stock, in whole or in part; (ii) shares that are used to pay the exercise price of stock options and shares used to pay withholding taxes on

awards generally; and (iii) shares purchased by TRV on the open market using cash option exercise proceeds; provided, however, that the increase in the number of shares of common stock available for grant pursuant to such market purchases shall not be greater than the number that could be repurchased at fair market value on the date of exercise of the stock option giving rise to such option proceeds. In addition, the 16.9 million shares authorized by shareholders for issuance under the 2014 Incentive Plan will be increased by any shares subject to awards under The Travelers Companies, Inc. Amended and Restated 2004 Stock Incentive Plan (2004 Incentive Plan) that were outstanding as of May 27, 2014 and subsequently expire, are forfeited, canceled, settled in cash or otherwise terminate without the issuance of shares.

Stock Option Awards

Stock option awards granted to eligible officers and key employees have a ten-year term. All stock options are granted with an exercise price equal to the closing price of TRV's common stock on the date of grant. The stock options granted generally vest upon meeting certain years of service criteria. Except as the Compensation Committee of the TRV Board of Directors may allow in the future, stock options cannot be sold or transferred by the participant. Stock options outstanding under the 2014 Incentive Plan and the 2004 Incentive Plan generally vest three years after grant date (cliff vest).

A summary of stock option activity under the 2014 Incentive Plan and the legacy plans as of and for the year ended December 31, 2018 is as follows:

| Stock Options | Number | Weighted Average Exercise Price | Weighted Average Contractual Life Remaining | Aggregate Intrinsic Value (\$ in millions) |
|--------------------------------------|------------------|---------------------------------------|--|---|
| Outstanding, beginning of year | 8,712,467 | \$ 97.45 | | |

| Exercisable at end of year | <u>3,889,013</u> | \$ 88.83 | 3.9 Years | \$ 123 |

⁽¹⁾ Represents awards for which the requisite service has been rendered, including those that are retirement eligible.

On February 5, 2019, TRV, under the 2014 Incentive Plan, granted 2,051,673 stock option awards with an exercise price of \$126.18 per share. The fair value attributable to the stock option awards on the date of grant was \$16.65 per share.

Restricted Stock Units, Deferred Stock Units and Performance Share Award Programs

TRV issues restricted stock unit awards to eligible officers and key employees under the Equity Awards program established pursuant to the 2014 Incentive Plan. A restricted stock unit represents the right to receive a share of common stock. These restricted stock unit awards are granted at market price, generally vest three years from the date of grant, do not have voting rights and the underlying shares of common stock are not issued until the vesting criteria is satisfied. In addition, TRV's Board of Directors can be issued deferred stock units from (i) an annual award; (ii) deferred compensation (in lieu of cash retainer); and (iii) dividend equivalents earned on outstanding deferred compensation.

TRV also has a Performance Share Awards Program established pursuant to the 2004 Incentive Plan and which continues pursuant to the 2014 Incentive Plan. Under the program, TRV may issue performance share awards to certain employees of TRV who hold positions of Vice President (or its equivalent) or above. The performance share awards provide the recipient the right to earn shares of TRV's common stock based upon TRV's attainment of certain performance goals and the recipient meeting certain years of service criteria. The performance goals for performance share awards are based on TRV's adjusted return on equity over a three-year performance period. Vesting of performance shares is contingent upon TRV attaining the relevant performance period minimum threshold return on equity and the recipient meeting certain years of service criteria, generally three years for full vesting, subject to proration for certain termination conditions. If the performance period return on equity is below the minimum threshold, none of the performance shares will vest. If performance meets or exceeds the minimum performance threshold, a range of performance shares will vest (50% to 150% for awards granted in 2017, 2018 and 2019), depending on the actual return on equity attained.

The fair value of restricted stock units, deferred stock units and performance shares is measured at the market price of TRV stock at date of grant. Under terms of the 2014 Incentive Plan, holders of deferred stock units and performance shares may receive dividend equivalents.

The total fair value of shares that vested during the years ended December 31, 2018 and 2017 was \$135 million and \$166 million, respectively.

| Nonvested, end of year | <u>1,216,676</u> | \$ 122.34 | <u>684,889</u> | \$ 128.83 |

⁽¹⁾ Represents awards for which the requisite service has been rendered.

⁽²⁾ Reflects the number of performance shares attributable to the performance goals attained over the completed performance period (three years) and for which service conditions have been met.

⁽³⁾ Represents the current year change in estimated performance shares to reflect the attainment of performance goals for the awards that were granted in each of the years 2016 through 2018.

In addition to the nonvested shares presented in the above table, there are related nonvested dividend equivalent shares. The number of nonvested dividend equivalent shares related to deferred stock units was 379 at the beginning of the year and 329 at the end of the year and the number of nonvested dividend equivalent shares related to performance shares was 26,584 at the beginning of the year and 24,876 at the end of the year. The dividend equivalent shares are subject to the same vesting terms as the deferred stock units and performance shares.

On February 5, 2019, TRV, under the 2014 Incentive Plan, granted 929,391 common stock awards in the form of restricted stock units, deferred stock units and performance share awards to participating officers, non-employee directors and other key employees. The restricted stock units and deferred stock units totaled 557,637 shares while the performance share awards totaled 371,754 shares. The fair value per share attributable to the common stock awards on the date of grant was \$126.18.

12. LOSSES AND LOSS ADJUSTMENT EXPENSES

A. The table below is a reconciliation of beginning and ending reserve balances for losses and LAE for the years ended December 31, 2018 and 2017.

| (in thousands) | 2018 | 2017 |
|---|------------------|------------------|
| Losses and LAE at beginning of year | \$ 41,742 | \$ 44,389 |
| Provision for losses and LAE for claims arising in: | | |
| Current year | 40,389 | 45,322 |
| Prior years | <u>2,600</u> | <u>900</u> |
| Total incurred | <u>42,989</u> | <u>46,222</u> |
| Losses and LAE payments for claims arising in: | | |
| Current year | 21,863 | 26,024 |
| Prior years | <u>22,530</u> | <u>22,845</u> |
| Total payments | <u>44,393</u> | <u>48,869</u> |
| Losses and LAE at end of year | <u>\$ 40,338</u> | <u>\$ 41,742</u> |

The Company's unpaid losses are reported net of anticipated salvage and subrogation of \$1.7 million at both December 31, 2018 and 2017.

B. Changes in Incurred Losses and LAE:

In 2018, the prior year-end total loss and LAE reserves developed unfavorably by \$2.6 million, resulting primarily from higher than expected development for loss and defense and cost containment expense in the homeowners and private passenger auto liability lines. This change was partially offset by favorable development for adjusting and other expense in the private passenger auto liability line. The remaining changes are generally the result of ongoing analyses of recent loss data and trends. There are no material additional premiums or return premiums as a result of these prior year effects.

13. FIXED ASSETS

A. Electronic Data Processing (EDP) Equipment and Software:

TRV capitalizes software and EDP equipment in certain insurance subsidiaries. Operating system software and EDP equipment are admitted provided they are not in excess of limits prescribed by statutory accounting practices. Capitalized nonoperating system software is recorded as a nonadmitted asset. Depreciation of equipment and amortization of operating system software are calculated using the straight-line method over the shorter of its estimated useful life or 3 years. Nonoperating system software is amortized using the straight-line method over the shorter of its estimated useful life or 5 years. Depreciation and amortization are allocated among companies in accordance with normal expense and cost allocation methods. Depreciation and amortization expense related to EDP equipment and software allocable to the Company totaled \$228 thousand and \$222 thousand in 2018 and 2017, respectively.

B. Furniture, Fixtures, Equipment and Leasehold Improvements:

Depreciation and amortization are allocated among companies in accordance with normal expense and cost allocation methods. Depreciation of furniture, fixtures and equipment and amortization of leasehold improvements allocable to the Company totaled \$95 thousand and \$115 thousand in 2018 and 2017, respectively.

14. SUBSEQUENT EVENTS

There were no subsequent events requiring adjustment to the financial statements or disclosure through April 18, 2019, the date the Company's statutory financial statements were available to be issued.

PROPERTY AND CASUALTY INTERROGATORIES RELATING TO REINSURANCE

1. Has the reporting entity reinsured any risk with any other entity under a quota share reinsurance contract that includes a provision that would limit the reinsurer's losses below the stated quota share percentage (e.g., a deductible, a loss ratio corridor, a loss cap, an aggregate limit or any similar provisions)?
- Yes [] No []
2. Has the reporting entity ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates) for which during the period covered by the statement: (i) it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; (ii) it accounted for that contract as reinsurance and not as a deposit; and (iii) the contract(s) contain one or more of the following features or other features that would have similar results:
- (a) A contract term longer than two years and the contract is noncancellable by the reporting entity during the contract term;
- (b) A limited or conditional cancellation provision under which cancellation triggers an obligation by the reporting entity, or an affiliate of the reporting entity, to enter into a new reinsurance contract with the reinsurer, or an affiliate of the reinsurer;
- (c) Aggregate stop loss reinsurance coverage;
- (d) A unilateral right by either party (or both parties) to commute the reinsurance contract, whether conditional or not, except for such provisions which are only triggered by a decline in the credit status of the other party;
- (e) A provision permitting reporting of losses, or payment of losses, less frequently than on a quarterly basis (unless there is no activity during the period); or
- (f) Payment schedule, accumulating retentions from multiple years or any features inherently designed to delay timing of the reimbursement to the ceding entity?
- Yes [] No []
3. Has the reporting entity during the period covered by the statement ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates), for which, during the period covered by the statement, it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; excluding cessions to approved pooling arrangements or to captive insurance companies that are directly or indirectly controlling, controlled by, or under common control with (i) one or more unaffiliated policyholders of the reporting entity, or (ii) an association of which one or more unaffiliated policyholders of the reporting entity is a member where:
- (a) The written premium ceded to the reinsurer by the reporting entity or its affiliates represents fifty percent (50%) or more of the entire direct and assumed premium written by the reinsurer based on its most recently available financial statement; or
- (b) Twenty-five percent (25%) or more of the written premium ceded to the reinsurer has been retroceded back to the reporting entity or its affiliates in a separate reinsurance contract.
- Yes [] No []
4. Except for transactions meeting the requirements of paragraph 31 of SSAP No. 62R, *Property and Casualty Reinsurance*, has the reporting entity ceded any risk under any reinsurance contract (or multiple contracts with the same reinsurer or its affiliates) during the period covered by the financial statement, and either:
- (a) Accounted for that contract as reinsurance (either prospective or retroactive) under statutory accounting principles ("SAP") and as a deposit under generally accepted accounting principles ("GAAP"); or
- (b) Accounted for that contract as reinsurance under GAAP and as a deposit under SAP?
- Yes [] No []
