Second Quarter 2021 vs 2020 Commentary

- Net investment income (NII) from the long-term fixed income portfolio decreased due to lower interest rates, partially offset by an increase in average investments
- NII from the short-term fixed income portfolio decreased due to lower interest rates
- NII from the non-fixed income portfolio increased due to higher private equity partnership returns. The loss in the non-fixed income portfolio in 2Q 2020 was related to the disruption in global financial markets during 1Q 2020 associated with COVID-19 (non-fixed income returns are generally reported on a one-quarter lagged basis)

¹ 2019 and 2020 data represent quarterly average

² Excludes investment expenses

Components of Core Return on Equity

- Long-term fixed net investment portfolio investment income less holding company interest expense
- Short-term fixed net investment portfolio investment income
- Non-fixed net investment portfolio investment income (loss)
- Underwriting gain (loss) and other

Appendix

2021 Catastrophe Reinsurance

Catastrophe Bonds - Long Point Re III Ltd.

- \$500 million aggregate principal was placed in May 2018 and the attachment point was reset in May 2021
 - The reinsurance agreement provides coverage to the Company through May 24, 2022 for certain property losses on specified lines of business from tropical cyclones, earthquakes, severe thunderstorms or winter storms from Virginia to Maine. The attachment point and maximum limit are reset annually to adjust the expected loss of the layer within a predetermined range. For the period from May 25, 2021 through and including May 24, 2022, the Company will be entitled to begin recovering amounts under this reinsurance agreement if the covered losses in the covered area for a single occurrence reach an initial attachment amount of \$1.98 billion. The full \$500 million coverage amount is available until such covered losses reach a maximum of \$2.48 billion.

Northeast Property Catastrophe Excess-of-Loss Reinsurance Treaty

- \$600 million part of \$850 million of coverage, subject to a \$2.25 billion retention was renewed effective July 1, 2021
 - The reinsurance agreement provides coverage to the Company for losses arising from a single occurrence and allows one reinstatement. Coverage is provided on an all perils basis, including but not limited to hurricanes, tornadoes, hail storms, earthquakes, winter storms and/or freeze losses (coverage is included for terrorism events in limited circumstances). Coverage for cyber events applies only in limited circumstances and coverage for communicable disease and nuclear, biological and radiological terrorism attacks is excluded from this treaty. The treaty covers territory from Virginia to Maine for the period from July 1, 2021 through and including June 30, 2022. Losses from a covered event anywhere in North America and waters contiguous thereto may be used to satisfy the retention. Recoveries under the Catastrophe Bonds (if any) would be first applied to reduce losses subject to this treaty.

- The following additional catastrophe reinsurance agreements were effective July 1, 2021:
 - Middle Market Earthquake Catastrophe Excess-of-Loss Reinsurance Treaty
 - Canadian Property Catastrophe Excess-of-Loss Reinsurance Treaty
- The following additional catastrophe reinsurance agreements remain in effect:
 - Corporate Catastrophe Excess-of-Loss Reinsurance Treaty
 - Underlying Property Aggregate Catastrophe Excess-of-Loss Reinsurance Treaty
 - Personal Insurance Earthquake Catastrophe Excess-of-Loss Reinsurance Treaty
 - Other International Reinsurance Treaties

For further information regarding these additional agreements, see the “Catastrophe Reinsurance” section of “Part 1 - Item 1 - Business” in the Company’s Annual Report on Form 10-K for the year ended December 31, 2020 and in the “Catastrophe Reinsurance Coverage” section of Management’s Discussion and Analysis of Financial Condition and Results of Operations in the Company’s Quarterly Report on Form 10-Q for the quarter ended June 30, 2021, in each case, as updated by our subsequent periodic filings with the SEC.

Explanatory Note

This presentation contains, and management may make, certain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical facts, may be forward-looking statements. Words such as “may,” “will,” “should,” “likely,” “anticipates,” “expects,” “intends,” “plans,” “projects,” “believes,” “views,” “estimates” and similar expressions are used to identify these forward-looking statements. These statements include, among other things, the Company’s statements about:

- the Company’s outlook, the impact of trends on its business and its future results of operations and financial condition;
- the impact of COVID-19 and related economic conditions;
- the impact of legislative or regulatory actions or court decisions taken in response to COVID-19 or otherwise;
- share repurchase plans;
- future pension plan contributions;
- the sufficiency of the Company’s asbestos and other reserves;
- the impact of emerging claims issues as well as other insurance and non-insurance litigation;
- the cost and availability of reinsurance coverage;
- catastrophe losses;
- the impact of investment, economic and underwriting market conditions, including inflation;
- strategic and operational initiatives to improve profitability and competitiveness;
- the Company’s competitive advantages;
- new product offerings;
- the impact of new or potential trade regulations imposed by the United States or other nations; and
- the impact of developments in the tort environment.

The Company cautions investors that such statements are subject to risks and uncertainties, many of which are difficult to predict and generally beyond the Company’s control, that could cause actual results to differ materially from those expressed in, or implied or projected by, the forward-looking information and statements. Some of the factors that could cause actual results to differ include, but are not limited to, the following:

Insurance-Related Risks

- high levels of catastrophe losses;
- actual claims may exceed the Company’s claims and claim adjustment expense reserves, or the estimated level of claims and claim adjustment expense reserves may increase, including as a result of, among other things, changes in the legal/tort, regulatory and economic environments;
- the Company’s potential exposure to asbestos and environmental claims and related litigation;
- the Company is exposed to, and may face adverse developments involving, mass tort claims; and
- the effects of emerging claim and coverage issues on the Company’s business are uncertain, and court decisions or legislative changes that take place after the Company issues its policies can result in an unexpected increase in the number of claims.

Financial, Economic and Credit Risks

- a period of financial market disruption or an economic downturn;
- the Company’s investment portfolio is subject to credit and interest rate risk, and may suffer reduced or low returns or material realized or unrealized losses;
- the Company is exposed to credit risk related to reinsurance and structured settlements, and reinsurance coverage may not be available to the Company;
- the Company is exposed to credit risk in certain of its insurance operations and with respect to certain guarantee or indemnification arrangements that it has with third parties;
- a downgrade in the Company’s claims-paying and financial strength ratings; and
- the Company’s insurance subsidiaries may be unable to pay dividends to the Company’s holding company in sufficient amounts.

Business and Operational Risks

- the impact of COVID-19 and related risks, including with respect to revenues, claims and claim adjustment expenses, general and administrative expenses, investments, inflation, adverse legislative and/or regulatory action, operational disruptions and heightened cyber security risks and foreign currency exchange rate changes;
- the intense competition that the Company faces, and the impact of innovation, technological change and changing customer preferences on the insurance industry and the markets in which it operates;
- disruptions to the Company’s relationships with its independent agents and brokers or the Company’s inability to manage effectively a changing distribution landscape;
- the Company’s efforts to develop new products, expand in targeted markets, improve business processes and workflows or make acquisitions may not be successful and may create enhanced risks;
- the Company’s pricing and capital models may provide materially different indications than actual results;
- loss of or significant restrictions on the use of particular types of underwriting criteria, such as credit scoring, or other data or methodologies, in the pricing and underwriting of the Company’s products; and
- the Company is subject to additional risks associated with its business outside the United States.

Technology and Intellectual Property Risks

- as a result of cyber attacks or otherwise, the Company may experience difficulties with technology, data and network security or outsourcing relationships;
- the Company’s dependence on effective information technology systems and on continuing to develop and implement improvements in technology; and
- the Company may be unable to protect and enforce its own intellectual property or may be subject to claims for infringing the intellectual property of others.

Regulatory and Compliance Risks

- changes in regulation, including higher tax rates; and
- the Company’s compliance controls may not be effective.

In addition, the Company’s share repurchase plans depend on a variety of factors, including the Company’s financial position, earnings, share price, catastrophe losses, maintaining capital levels commensurate with the Company’s desired ratings from independent rating agencies, changes in levels of written premiums, funding of the Company’s qualified pension plan, capital requirements of the Company’s operating subsidiaries, legal requirements, regulatory constraints, other investment opportunities (including mergers and acquisitions and related financings), market conditions and other factors, including the ongoing level of uncertainty related to COVID-19.

Our forward-looking statements speak only as of the date of this presentation or as of the date they are made, and we undertake no obligation to update forward-looking statements. For a more detailed discussion of these factors, see the information under the captions “Risk Factors,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Forward Looking Statements” in the quarterly report on Form 10-Q filed with the Securities and Exchange Commission (SEC) on July 20, 2021, and in our most recent annual report on Form 10-K filed with the SEC on February 11, 2021, in each case as updated by our periodic filings with the SEC.
