2U and edX: An Industry Redefining Combination

June 29, 2021
Forward Looking Statements.

This presentation contains forward-looking statements regarding 2U, Inc. ("2U", the "company", "our"), edX Inc., 2U’s acquisition of assets from edX Inc. (the "Acquisition") and future business expectations, strategy and intentions all of which are subject to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical facts contained herein, including statements regarding future results of operations and financial position of 2U, including financial targets, business strategy, and plans and objectives for future operations, are forward-looking statements. 2U has based these forward-looking statements largely on its estimates of its financial results and its current expectations and projections about future events and financial trends that it believes may affect its financial condition, results of operations, business strategy, short-term and long-term business operations and objectives, and financial needs as of the date hereof. The company undertakes no obligation to update these statements as a result of new information or future events. These forward-looking statements are subject to a number of risks, uncertainties and assumptions that could cause actual results to differ materially from the results predicted, including, but not limited to: risks related to the Acquisition, including failure to obtain applicable regulatory and governmental approvals in a timely manner or at all, integration risks and failure to achieve the anticipated benefits of the Acquisition; trends in the higher education market and the market for online education, and expectations for growth in those markets; the acceptance, adoption and growth of online learning by colleges and universities, faculty, students, employers, accreditors and state and federal licensing bodies; the impact of competition on the company’s industry and innovations by competitors; the company's ability to comply with evolving regulations and legal obligations related to data privacy, data protection and information security; the company’s expectations about the potential benefits of its cloud-based software-as-a-service technology and technology-enabled services to university clients and students; the company’s dependence on third parties to provide certain technological services or components used in its platform; the company’s expectations about the predictability, visibility and recurring nature of its business model; the company's ability to meet the anticipated launch dates of its degree programs, short courses and boot camps; the company’s ability to acquire new university clients and expand its degree programs, short courses and boot camps with existing university clients; the company’s ability to successfully integrate the operations of its acquisitions, including edX and Trilogy, to achieve the expected benefits of its acquisitions and manage, expand and grow the combined company; the company's ability to refine its indebtedness on attractive terms, if at all, to better align with its focus on profitability; the company’s ability to service its substantial indebtedness and comply with the covenants and conversion obligations contained in the indenture governing its convertible senior notes and the credit agreement governing its revolving credit facility; the company’s ability to generate sufficient future operating cash flows from recent acquisitions to ensure related goodwill is not impaired; the company's ability to execute its growth strategy in the international, undergraduate and non-degree alternative markets; the company’s ability to continue to recruit prospective students for its offerings; the company's ability to maintain or increase student retention rates in its degree programs; the company's ability to attract, hire and retain qualified employees; the company’s expectations about the scalability of its cloud-based platform; potential changes in regulations applicable to the company or its university clients; the company’s expectations regarding the amount of time its cash balances and other available financial resources will be sufficient to fund its operations; the impact and cost of stockholder activism; the impact of any natural disasters or public health emergencies, such as the coronavirus disease 2019 ("COVID-19") pandemic; the company's expectations regarding the effect of the capped call transactions and regarding actions of the option counterparties and/or their respective affiliates; and other factors beyond the company’s control. These and other potential risks and uncertainties that could cause actual results to differ from the results predicted are more fully detailed under the heading “Risk Factors” in 2U’s Annual Report on Form 10-K for the year ended December 31, 2020, and other SEC filings. Moreover, 2U operates in a very competitive and rapidly changing environment. New risks emerge from time to time. It is not possible for 2U management to predict all risks, nor can 2U assess the impact of all factors on its business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements 2U may make. In light of these risks, uncertainties and assumptions, the forward-looking events and circumstances discussed herein may not occur and actual results could differ materially and adversely from those anticipated.

“As a global nonprofit, we’re relentlessly pursuing a world where every learner can access education to unlock their potential, without the barriers of cost or location.”

“We believe that great nonprofit universities can redefine higher education to address society’s critical needs. Education must be high-quality, blended and connected, relevant, accessible and affordable, and sustainable.”
A shared vision of universal access to the world’s best digital education

2U and edX have each built industry leading, mission-driven organizations by focusing on two shared beliefs. First, that great nonprofit universities are the most powerful engines of social and economic mobility. And second, that online learning has the potential to change lives and, in doing so, change the world.

By bringing together edX and 2U’s deeply aligned values, strengths, and complementary offerings, we’ll be able to make our shared vision of universal access to high-quality education a reality.
Meet edX

Every individual has the potential to create change, whether in their life, their community, or the world. The transformative power of education is what unlocks that potential. Yet, access to high-quality education has been a privilege of the few.

Back in 2012, edX realized it was time for a seismic shift in learning. From the tried and true to the leading edge. From “for some” to “for all.” By opening the classroom through online learning, edX empowers millions of learners to unlock their potential.

“I am happy and grateful that edX is offering high-quality education to the world”

Marketing cost synergies are realistic and achievable
(Illustrative Example)

What's needed to achieve a 10%+ reduction in average cost-per-enrollment?

\[
120M \times 0.01\% = \approx 12,000 \text{ Incremental Enrollments}
\]

\[
39M \times 0.03\% = \approx 12,000 \text{ Incremental Enrollments}
\]

Average Cost Per Enrollment

- 2020 Actual: ~$3.9K
- With Incremental Enrollments (Illustrative): ~$3.5K
