- The estimated CET1 capital ratio was $10.2 \%$, compared with 9.6\%

## CEO COMMENTARY

Harris H. Simmons, Chairman and CEO of Zions Bancorporation, commented, "Our third quarter results reflect a stabilization of the net interest margin in the wake of the industry-wide turbulence earlier in the year. While loan demand weakened in the third quarter, we were pleased with the growth in customer deposits, which increased $5 \%$ over the past three months, while higher-cost brokered deposits and short-term borrowed funds decreased $23 \%$ and $21 \%$, respectively."

Mr. Simmons continued, "Credit quality remains well controlled, and capital continues to strengthen, with the estimated Common Equity Tier 1 capital ratio increasing to 10.2\% from 9.6\% a year ago."

Mr. Simmons concluded, "This month we're celebrating the 150th anniversary of the founding of Zion's Savings Bank \& Trust Company, the predecessor of Zions Bancorporation, making us one of the oldest continually operating financial institutions in the West. We're proud of our history of responsible growth, and we look forward to helping to build strong communities throughout the western United States for many years to come."

${ }^{1}$ Rates are calculated using amounts in thousands and a tax rate of $21 \%$ for the periods presented.
Net interest income decreased $\$ 78$ million, or $12 \%$, in the third quarter of 2023 , relative to the prior year period, as higher earning asset yields were offset by higher funding costs. Net interest income was also impacted by a reduction in interest-earning assets and an increase in interest-bearing liabilities.

Average interest-earning assets decreased $\$ 1.8$ billion, or $2 \%$, from the prior year quarter, driven by declines of $\$ 4.5$ billion and $\$ 1.3$ billion in average securities and average money market investments, respectively. The decrease in average securities was primarily due to payments and maturities. These decreases were partially offset by an increase of $\$ 4.0$ billion in average loans and leases.

Average interest-bearing liabilities increased $\$ 10.9$ billion, or $26 \%$, from the prior year quarter, driven by increases of $\$ 9.9$ billion and $\$ 1.3$ billion in average interest-bearing deposits and average other short-term borrowings, respectively.

The net interest margin was $2.93 \%$, compared with $3.24 \%$, and was up from $2.92 \%$ in the second quarter of 2023 . The yield on average interest-earning assets was $5.02 \%$ in the third quarter of 2023 , an increase of 157 basis points, reflecting higher interest rates and a favorable mix change to higher yielding assets. The yield on total loans increased 167 basis points to $5.84 \%$, and the yield on securities increased 63 basis points to $2.73 \%$. The yield on average securities benefited from a decrease in the market value of AFS securities due to rising interest rates.

The cost of total deposits for the third quarter of 2023 was $1.92 \%$, compared with $0.10 \%$. The rate paid on total deposits and interest-bearing liabilities was $2.10 \%$, compared with $0.22 \%$, reflecting the higher interest rate environment. Average noninterest-bearing deposits as a percentage of total deposits were $37 \%$, compared with $51 \%$ during the same prior year period.

Total customer-related noninterest income remained relatively stable at $\$ 157$ million, compared with the prior year period. Loan-related fees and income increased $\$ 5$ million, primarily due to a $\$ 4$ million gain on the sale of certain mortgage servicing assets, and commercial account fees increased $\$ 3$ million, driven primarily by increased treasury management sweep income. These increases were partially offset by a $\$ 7$ million decrease in capital market fees, largely due to reduced swap and loan syndication fees.

Dividends and other income increased $\$ 13$ million, due to a valuation loss recognized on one of our equity investments in the prior year period, as well as an increase in dividends on FHLB stock in the current period.

${ }^{2}$ For information on non-GAAP financial measures, see pages 16-18.
Total noninterest expense increased $\$ 17$ million, or $4 \%$, relative to the prior year quarter. Technology, telecom, and information processing expense increased $\$ 9$ million, primarily due to increases in application software, license, maintenance, and related software amortization expenses. Deposit insurance and regulatory expense increased $\$ 7$ million, driven largely by an increased FDIC insurance base rate beginning in 2023 and changes in balance sheet composition.

The efficiency ratio was $64.4 \%$, compared with $57.6 \%$, primarily due to a decline in adjusted taxable-equivalent revenue. For information on non-GAAP financial measures, see pages 16-18.

| Total investment securities, net of allowance | \$20,738 | \$ 21,617 | \$24,182 | \$ | (879) | (4) | \$ (3,444) | (14) |

Total investment securities decreased $\$ 3.4$ billion, or $14 \%$, to $\$ 20.7$ billion at September 30, 2023, largely due to principal reductions. During the fourth quarter of 2022, we transferred approximately $\$ 10.7$ billion fair value ( $\$ 13.1$ billion amortized cost) of mortgage-backed AFS securities to the HTM category. The transfer of these securities from AFS to HTM at fair value resulted in a discount to the amortized cost basis of the HTM securities equivalent to the $\$ 2.4$ billion ( $\$ 1.8$ billion after tax) of unrealized losses in AOCI attributable to these securities. The amortization of the unrealized losses will offset the effect of the accretion of the discount created by the transfer. At September 30, 2023, the unamortized discount on the HTM securities totaled approximately $\$ 2.2$ billion ( $\$ 1.6$ billion after tax).

The trading securities portfolio, comprised of municipal securities, totaled $\$ 31$ million at September 30, 2023, compared with $\$ 526$ million at September 30, 2022. The prior year quarter also included $\$ 221$ million of customer sweeps into money market mutual funds. Beginning in the first quarter of 2023, related sweep balances were presented in "Money market investments" on the consolidated balance sheet.

We invest in securities to actively manage liquidity and interest rate risk and to generate interest income. We primarily own securities that can readily provide us cash and liquidity through secured borrowing agreements without the need to sell the securities. We also manage the duration of our investment securities portfolio to help balance the inherent interest rate mismatch between loans and deposits, and to protect the economic value of shareholders' equity. At September 30, 2023, the estimated duration of our securities portfolio decreased to 3.5 percent, compared with 3.9 percent at September 30, 2022, primarily due to the addition of fair value hedges of fixed-rate securities during the second quarter of 2023.

| Unfunded lending commitments | \$ 30,442 | \$ 30,524 | \$ 29,743 | \$ | (82) | - | \$ | 699 | 2 |

Loans and leases, net of unearned income and fees, increased $\$ 3.0$ billion, or $6 \%$, to $\$ 56.9$ billion at September 30, 2023, relative to the prior year quarter. Consumer loans increased $\$ 1.8$ billion from the prior year quarter, primarily in the 1-4 family residential and consumer construction loan portfolios, and commercial real estate loans increased $\$ 0.8$ billion, primarily in the multi-family and industrial construction loan portfolios. Increased funding of construction
lending commitments and conversion-to-term debt contributed to growth in these portfolios. Unfunded lending commitments increased $\$ 0.7$ billion, or $2 \%$, to $\$ 30.4$ billion at September 30, 2023, primarily due to growth in home equity and commercial and industrial unfunded lending commitments.

During the third quarter of 2023 , we recorded a $\$ 41$ million provision for credit losses, compared with a $\$ 71$ million provision during the prior year period. The allowance for credit losses ("ACL") was $\$ 738$ million at September 30, 2023, compared with $\$ 590$ million at September 30, 2022. The increase in the ACL was primarily due to deterioration in economic forecasts. The ratio of ACL to total loans and leases was $1.30 \%$ at September 30, 2023, compared with $1.09 \%$ at September 30, 2022. Net loan and lease charge-offs totaled $\$ 14$ million, compared with $\$ 27$ million in the prior year quarter, and classified loans decreased $\$ 196$ million, or $20 \%$. Nonperforming assets increased $\$ 68$ million, or $45 \%$, primarily due to two suburban office commercial real estate loans totaling $\$ 46$ million.

Total deposits decreased $\$ 0.6$ billion, or $1 \%$, from the prior year quarter, due to the $\$ 12.4$ billion reduction in noninterest-bearing demand deposits, which was largely offset by an $\$ 11.8$ billion increase in interest-bearing deposits, as the higher interest rate environment influenced the movement of customer balances into interest-bearing
products. At September 30, 2023 and June 30, 2023, total customer deposits (excluding brokered deposits) included approximately $\$ 6.4$ billion and $\$ 3.4$ billion, respectively, of reciprocal placement products, where we distributed our customers' deposits in a placement network to increase their FDIC insurance and in return we received a matching amount of deposits from other network banks.

Average total deposits decreased $\$ 1.8$ billion, or $2 \%$, relative to the prior year period, driven by the aforementioned decrease in average noninterest-bearing deposits as interest rates increased. Our loan-to-deposit ratio was $75 \%$, compared with $71 \%$ in the prior year quarter.

At September 30, 2023, the estimated total amount of uninsured deposits was $\$ 31.2$ billion, or $41 \%$, of total deposits, compared with $\$ 44.1$ billion, or $58 \%$, of total deposits at September 30, 2022.

Total borrowed funds, consisting primarily of secured borrowings, decreased $\$ 1.1$ billion from the prior year quarter, largely due to reduced funding needs as a result of the decrease in interest-earning assets. The decrease in long-term debt was due to the redemption of matured senior notes during the second quarter of 2023.

The common stock dividend was $\$ 0.41$ per share, unchanged from the third quarter of 2022. Common shares outstanding decreased 1.5 million, or $1.0 \%$, from the third quarter of 2022, primarily due to common stock repurchases in the prior year.

Accumulated other comprehensive income (loss) ("AOCI") was $\$ 3.0$ billion at September 30, 2023, and largely reflects the decline in the fair value of fixed-rate available-for-sale securities as a result of changes in interest rates. Absent any sales or credit impairment of these securities, the unrealized losses will not be recognized in earnings. We do not intend to sell any securities with unrealized losses. Additionally, changes in AOCI do not impact our regulatory capital ratios.

Estimated common equity tier 1 ("CET1") capital was $\$ 6.8$ billion, an increase of $7 \%$, compared with $\$ 6.3$ billion. The estimated CET1 capital ratio was $10.2 \%$, compared with $9.6 \%$. Tangible book value per common share increased to $\$ 25.75$, compared with $\$ 21.54$, primarily due to an increase in retained earnings. For more information on nonGAAP financial measures, see pages 16-18.

## Supplemental Presentation and Conference Call

Zions has posted a supplemental presentation to its website, which will be used to discuss the third quarter results at 5:30 p.m. ET on October 18, 2023. Media representatives, analysts, investors, and the public are invited to join this discussion by calling (877) 709-8150 (domestic and international) and entering the passcode 13741387, or via ondemand webcast. A link to the webcast will be available on the Zions Bancorporation website at zionsbancorporation.com. The webcast of the conference call will also be archived and available for 30 days.

## Forward-Looking Information

This earnings release includes "forward-looking statements" as that term is defined in the Private Securities Litigation Reform Act of 1995. These statements, often accompanied by words such as "may," "might," "could," "anticipate," "expect," and similar terms, are based on management's current expectations and assumptions regarding future events or determinations, all of which are subject to known and unknown risks and uncertainties.

Forward-looking statements are not guarantees, nor should they be relied upon as representing management's views as of any subsequent date. Actual results and outcomes may differ materially from those presented. Although this list is not comprehensive, important factors that may cause material differences include the quality and composition of our loan and securities portfolios and the quality and composition of our deposits; changes and uncertainties in applicable laws, and fiscal, monetary, regulatory, trade, and tax policies, and actions taken by governments, agencies, central banks and similar organizations, including increases in bank fees, insurance assessments, capital standards, and other regulatory requirements; protracted congressional negotiations and political stalemates regarding government funding and other issues that increase the possibility of government shutdowns; changes in general industry, political and economic conditions, including continued elevated inflation, economic slowdown or recession, or other economic disruptions; changes in interest and reference rates which could adversely affect our revenue and expenses, the value of assets and obligations, and the availability and cost of capital and liquidity; deterioration in economic conditions that may result in increased loan and leases losses; securities and capital markets behavior, including volatility and changes in market liquidity and our ability to raise capital; the impact of bank failures or adverse developments at other banks on general investor sentiment regarding the stability and liquidity of banks; the possibility that our recorded goodwill could become impaired, which may have an adverse impact on our earnings and capital; competitive pressures and other factors that may affect aspects of our business, such as pricing and demand for our products and services, our ability to recruit and retain talent, and the impact of digital commerce, artificial intelligence, and other innovations affecting the banking industry; our ability to complete projects and initiatives and execute on our strategic plans, manage our risks, control compensation and other expenses, and achieve our business objectives; our ability to provide adequate oversight of our suppliers or prevent inadequate performance by third parties upon whom we rely for the delivery of various products and services; our ability to develop and maintain technology, information security systems and controls designed to guard against fraud, cybersecurity, and privacy risks; adverse media and other expressions of negative public opinion whether directed at us, other banks, the banking industry or otherwise that may adversely affect our reputation and that of the banking industry generally; the effects of pandemics and other health emergencies that may affect our business, employees, customers, and communities; the
effects of wars and geopolitical conflicts, such as the ongoing conflict between Russia and Ukraine and the escalating events in the Middle East, and other local, national, or international disasters, crises, or conflicts that may occur in the future; natural disasters that may impact our and our customer's operations and business; and governmental and social responses to environmental, social, and governance issues, including those with respect to climate change.

Factors that could cause our actual results, performance or achievements, industry trends, and results or regulatory outcomes to differ materially from those expressed or implied in the forward-looking statements are discussed in our 2022 Form 10-K and subsequent filings with the Securities and Exchange Commission (SEC), and are available on our website (www.zionsbancorporation.com) and from the SEC (www.sec.gov).

We caution against the undue reliance on forward-looking statements, which reflect our views only as of the date they are made. Except to the extent required by law, we specifically disclaim any obligation to update any factors or to publicly announce the revisions to any forward-looking statements to reflect future events or developments.

## NON-GAAP FINANCIAL MEASURES

## (Unaudited)

This press release presents non-GAAP financial measures in addition to GAAP financial measures. The adjustments to reconcile from the applicable GAAP financial measures to the non-GAAP financial measures are presented in the following schedules. We consider these adjustments to be relevant to ongoing operating results and provide a meaningful basis for period-to-period comparisons. We use these non-GAAP financial measures to assess our performance and financial position. We believe that presenting these non-GAAP financial measures permits investors to assess our performance on the same basis as that applied by our management and the financial services industry.
Non-GAAP financial measures have inherent limitations and are not necessarily comparable to similar financial measures that may be presented by other financial services companies. Although non-GAAP financial measures are frequently used by stakeholders to evaluate a company, they have limitations as an analytical tool and should not be considered in isolation or as a substitute for analysis of results reported under GAAP.

## Tangible Common Equity and Related Measures

Tangible common equity and related measures are non-GAAP measures that exclude the impact of intangible assets and their related amortization. We believe these non-GAAP measures provide useful information about our use of shareholders' equity and provide a basis for evaluating the performance of a business more consistently, whether acquired or developed internally.

## Efficiency Ratio and Adjusted Pre-Provision Net Revenue

The efficiency ratio is a measure of operating expense relative to revenue. We believe the efficiency ratio provides useful information regarding the cost of generating revenue. We make adjustments to exclude certain items that are not generally expected to recur frequently, as identified in the subsequent schedule, which we believe allow for more consistent comparability across periods. Adjusted noninterest expense provides a measure as to how we are managing our expenses. Adjusted pre-provision net revenue enables management and others to assess our ability to generate capital. Taxable-equivalent net interest income allows us to assess the comparability of revenue arising from both taxable and tax-exempt sources.

    ${ }^{2}$ Excluding the $\$ 13$ million gain on sale of bank-owned premises recorded in dividends and other income, the efficiency ratio for the three months ended June 30, 2023 would have been $63.6 \%$.
