

ORBCOMM ANNOUNCES THE SUCCESSFUL LAUNCH OF ITS FIRST SIX OG2 SATELLITES

Advances global satellite network to a higher level of performance, coverage and efficiency

Rochelle Park, NJ, July 14, 2014 – ORBCOMM Inc. (Nasdaq: ORBC), a global provider of Machine-to-Machine (M2M) solutions, today announced that it has successfully launched six next generation OG2 satellites aboard a SpaceX Falcon 9 rocket from Cape Canaveral Air Force Station, Florida at 11:15 am EDT. The OG2 satellites were successfully separated from the Falcon 9 launch vehicle into the proper insertion orbit.

“The successful launch of the first OG2 mission is a testament to the entire OG2 team at ORBCOMM, SpaceX, Sierra Nevada Corporation, Boeing, and Moog, and I’d like to thank them for their hard work and dedication,” said Marc Eisenberg, ORBCOMM’s Chief Executive Officer. “OG2 will enable our customers to send and receive more data, with greater speed, more efficiently than ever before.”

After an initial health check, the satellites will undergo extensive In-Orbit Testing (IOT) to verify that all subsystems are properly functioning. The satellites are expected to be providing full commercial M2M messaging and AIS services within the next 60 days.

ORBCOMM’s OG2 satellites are more advanced than its current OG1 satellites and will provide existing customers with significant enhancements, such as faster message delivery, larger message sizes and better coverage at higher latitudes, while significantly increasing network capacity. In addition, the OG2 satellites are equipped with an Automatic Identification System (AIS) payload to receive and report transmissions from AIS-equipped vessels for ship tracking and other maritime navigational and safety efforts, increasing asset visibility and the probability of detection for ORBCOMM’s AIS customers.

ORBCOMM anticipates launching the remaining eleven OG2 satellites and enhanced OG2 services as early as the end of the fourth quarter of 2014 to complete its next generation constellation.

About ORBCOMM Inc.

ORBCOMM is a global provider of Machine-to-Machine (M2M) solutions. Its customers include Caterpillar Inc., Doosan Infracore America, Hitachi Construction Machinery, Hyundai Heavy Industries, I.D. Systems, Inc., Komatsu Ltd., Cartrack (Pty.) Ltd., and Volvo Construction Equipment, among other industry leaders. By means of a global network of low-earth orbit (LEO) satellites and accompanying ground infrastructure as well as our Tier One cellular partners, ORBCOMM’s low-cost and reliable two-way data communication services track, monitor and control mobile and fixed assets in our core markets: commercial transportation; heavy equipment; industrial fixed assets; marine; and homeland security.

ORBCOMM is an innovator and leading provider of tracking, monitoring and control services for the transportation market. Under its ReeferTrak[®], GenTrak[™], GlobalTrak[®], and CargoWatch[®] brands, the company provides customers with the ability to proactively monitor, manage and remotely control their cold chain and dry transport assets. Additionally, ORBCOMM provides Automatic Identification System (AIS) data services for vessel tracking and to improve maritime safety to government and commercial customers worldwide. ORBCOMM is headquartered in Rochelle Park, New Jersey and has its Innovation & Network Control Center in Sterling, Virginia. For more information, visit www.orbcomm.com.

Forward-Looking Statements

Certain statements discussed in this press release constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements generally relate to our plans, objectives and expectations for future events and include statements about our expectations, beliefs, plans, objectives, intentions, assumptions and other statements that are not historical facts. Such forward-looking statements, including those concerning the Company's expectations, are subject to known and unknown risks and uncertainties, which could cause actual results to differ materially from the results, projected, expected or implied by the forward-looking statements, some of which are beyond the Company's control, that may cause the Company's actual results, performance or achievements, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. In addition, specific consideration should be given to various factors described in Part I, Item 1A. "Risk Factors" and Part II, Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations," and elsewhere in our Annual Report on Form 10-K for the year ended December 31, 2013, and other documents, on file with the Securities and Exchange Commission. The Company undertakes no obligation to publicly revise any forward-looking statements or cautionary factors, except as required by law.
