

## ORBCOMM LAUNCHES ENTERPRISE CONNECT

*Turn-key business continuity solution providing reliable connectivity using 4G LTE networks from Top Tier carriers to deliver wireless failover and out-of-band management services*

**Rochelle Park, NJ, September 10, 2015** – ORBCOMM Inc. (Nasdaq: ORBC), a global provider of Machine-to-Machine (M2M) and Internet of Things (IoT) solutions, today announced the launch of [ORBCOMM Enterprise Connect](#), a new solution focused on wireless devices and applications that require uninterrupted, high-bandwidth connectivity. ORBCOMM Enterprise Connect leverages 4G LTE to provide reliable wireless WAN connectivity that can be used as a back-up to existing broadband connections for distributed enterprise, financial, hospitality and retail locations.

ORBCOMM Enterprise Connect provides both large and small enterprises with an affordable turn-key solution that combines world-class connectivity, hardware, management capabilities along with network and deployment support. ORBCOMM's wireless failover service is a strong complement to enterprises that rely on wired technologies, such as T1, T3 MPLS networks and cable modems. Utilizing integrated routers from industry-leading hardware manufacturers, customers can instantly switch to a 4G xLTE connection on a Tier One cellular network in the event of a primary network communications failure, including hardware failure, construction-related cable cuts and extreme weather situations such as hurricanes and earthquakes.

In addition, ORBCOMM Enterprise Connect provides Out-of-Band Management (OOBM) capabilities that allow IT personnel to remotely troubleshoot and resolve issues with networking equipment using cellular connectivity when primary networks fail. Remote troubleshooting capabilities enable early identification of the cause of the outage and accelerate repair and/or replacement of the equipment, minimizing the costs associated with downtime and dispatching a technician on-site.

ORBCOMM Enterprise Connect customers will also be able to leverage the [ORBCOMMconnect](#) subscriber management portal for remote device management and monitoring. The ORBCOMMconnect portal features interactive and customizable dashboards to manage device provisioning, usage and price plans as well as to create valuable reports.

“As part of our expanded M2M and IoT portfolio, we can now address a host of new markets with a wireless service that will help protect businesses from unexpected network outages and ensure they have fast, reliable connectivity to conduct business efficiently,” said Marc Eisenberg, ORBCOMM's Chief Executive Officer. “With a small investment in ORBCOMM Enterprise Connect, our customers will gain significant bottom-line benefits by reducing risks of downtime, lost productivity and customer experience issues.”

ORBCOMM will showcase its new Enterprise Connect solution in Booth 4843 at [CTIA Super Mobility 2015](#) from September 9-11, 2015 in Las Vegas, NV.

For more information about ORBCOMM Enterprise Connect, please visit <http://www.orbcomm.com/ec>. ORBCOMM Enterprise Connect will also be available through ORBCOMM's custom e-commerce platform early in the fourth quarter of 2015. Future solutions, including a series of primary connect M2M services, will be rolled out for ATMs, kiosks, digital signage and connected vehicles like buses that need continuous, high-speed Internet connections to keep their business operating.

### **About ORBCOMM Inc.**

ORBCOMM Inc. (Nasdaq: ORBC) is a leading global provider of Machine-to-Machine (M2M) communication solutions and the only commercial satellite network dedicated to M2M. ORBCOMM's unique combination of global satellite, cellular and dual-mode network connectivity, hardware, web reporting applications and software is the M2M industry's most complete service offering. Our solutions are designed to remotely track, monitor, and control fixed and mobile assets in core vertical markets including transportation & distribution, heavy equipment, industrial fixed assets, oil & gas, maritime, mining and government.

With nearly 20 years of innovation and expertise in M2M, ORBCOMM has more than 1.3 million subscribers with a diverse customer base including premier OEMs such as Caterpillar Inc., Doosan Infracore America, Hitachi Construction Machinery Co., Ltd., John Deere, Komatsu Ltd., and Volvo Construction Equipment, as well as end-to-end solutions customers such as C&S Wholesale, Canadian National Railways, CR England, Hub Group, KLLM Transport Services, Marten Transport, Swift Transportation, Target, Tropicana, Tyson Foods, Walmart and Werner Enterprises. ### **Forward-Looking Statements**

Certain statements discussed in this press release constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements generally relate to our plans, objectives and expectations for future events and include statements about our expectations, beliefs, plans, objectives, intentions, assumptions and other statements that are not historical facts. Such forward-looking statements, including those concerning the Company's expectations, are subject to known and unknown risks and uncertainties, which could cause actual results to differ materially from the results, projected, expected or implied by the forward-looking statements, some of which are beyond the Company's control, that may cause the Company's actual results, performance or achievements, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. In addition, specific consideration should be given to various factors described in Part I, Item 1A. "Risk Factors" and Part II, Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations," and elsewhere in our Annual Report on Form 10-K for the year ended December 31, 2014, and other documents, on file with the Securities and Exchange Commission. The Company undertakes no obligation to publicly revise any forward-looking statements or cautionary factors, except as required by law.
