

ORBCOMM WINS TWO IOT EVOLUTION PRODUCT OF THE YEAR AWARDS

Recognizes ORBCOMM's technology leadership and expertise in enabling IoT solutions

Rochelle Park, NJ, June 4, 2015 –ORBCOMM Inc. (Nasdaq: ORBC), a leading global provider of [Machine-to-Machine \(M2M\) solutions](#), today announced that it has been named a winner of two Internet of Things (IoT) Evolution Product of the Year Awards for the ORBCOMM GT 1000 and the SkyWave IDP-782 by TMC, a global, integrated media company. The TMC award honors the best systems and solutions in IoT technology that are delivering on the promise of gathering information regardless of proximity.

[ORBCOMM's GT 1000](#) is a high-performance electronic bolt seal targeted for theft prevention and recovery as well as virtual warehouse and in-transit visibility applications for intermodal containers. Co-developed with the world's largest seal company, Tyden Brooks, the GT 1000 is a cost-effective cargo tracking, security and condition monitoring device that enables asset positioning through GSM cellular communications, ZigBee and assisted GPS technologies. The bolt and locking cap provide a secure container lock and reliably detect cut or removal in real-time for maximum security. By utilizing a security padlock in lieu of a locking cap, the GT 1000's bolt can be used repeatedly. The GT 1000 communicates with a robust web application that features security, supply chain automation, management overview via dashboards, precise measurement against performance metrics, and the ability to detect and correct supply chain anomalies in real time, significantly improving asset visibility, theft prevention and operational efficiency.

The [SkyWave IDP-782](#) provides fleet managers with a single, cost-effective device for both cellular and satellite network coverage so they can stay connected to assets, sensors and people. The dual-mode IDP-782 provides both configurable out-of-the-box software for quick deployments and flexible architecture that supports the development of custom applications for more complex solutions. In addition, the SkyWave IDP-782 features an optional 2.5 hour backup battery option to send GPS and other information when no vehicle power is available.

“We are honored to receive two Product of the Year Awards from TMC for the ORBCOMM GT 1000 and the SkyWave IDP-782, which set the standard for asset tracking, monitoring and security solutions across a diversity of markets,” said Christian Allred, ORBCOMM's Senior Vice President and General Manager of Enterprise Solutions. “ORBCOMM will continue to drive innovation and excellence in M2M and IoT technology by developing new products and services that allow our customers to have complete command and control of their assets and processes anywhere in the world.”

ORBCOMM and the other recipients of the 2015 IoT Evolution Product of the Year Award will be published in the second quarter edition of [IoT Evolution magazine](#).

About ORBCOMM Inc.

ORBCOMM Inc. (Nasdaq: ORBC) is a leading global provider of [Machine-to-Machine \(M2M\) communication solutions](#) and the only commercial satellite network dedicated to M2M. ORBCOMM's unique combination of global satellite, cellular and dual-mode network connectivity, hardware, web reporting applications and software is the M2M industry's most complete service offering. Our solutions are designed to remotely track, monitor, and control fixed and mobile assets in core vertical markets including transportation & distribution, heavy equipment, industrial fixed assets, oil & gas, maritime, mining and government.

With nearly 20 years of innovation and expertise in M2M, ORBCOMM has more than 1.2 million subscribers with a diverse customer base including premier OEMs such as Caterpillar Inc., Doosan Infracore America, Hitachi Construction Machinery Co., Ltd., John Deere, Komatsu Ltd., and Volvo Construction Equipment, as well as end-to-end solutions customers such as C&S Wholesale, Canadian National Railways, CR England, Hub Group, J.B. Hunt, Marten Transport, Swift Transportation, Target, Tropicana, and Tyson Foods. For more information, visit www.orbcomm.com.

About TMC

TMC is a global, integrated media company that supports clients' goals by building communities in print, online, and face to face. TMC publishes multiple magazines including *Cloud Computing*, *IoT Evolution*, *Customer*, and *Internet Telephony*. IoTevolutionworld is the leading source of news and articles for the communications and technology industries, and is read by as many as 1.5 million unique visitors monthly. TMC produces a variety of trade events, including ITEXPO, the world's leading business technology event, as well as industry events: Asterisk World; AstriCon; ChannelVision (CVx) Expo; Customer Experience (CX) Hot Trends Symposium; DevCon5 - HTML5 & Mobile App Developer Conference; IoT Evolution Conference & Expo; SmartVoice Conference; Software Telco Congress; Super Wi-Fi Summit - The Global Spectrum Sharing and TV White Space Event; SIP Trunking, Unified Communications & WebRTC Seminars; Wearable Tech Conference & Expo; Fitness and Sports Wearable Technology (FAST) Expo, WebRTC Conference & Expo; and more. For more information about TMC, visit www.tmcnet.com.

Forward-Looking Statements

Certain statements discussed in this press release constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements generally relate to our plans, objectives and expectations for future events and include statements about our expectations, beliefs, plans, objectives, intentions, assumptions and other statements that are not historical facts. Such forward-looking statements, including those concerning the Company's expectations, are subject to known and unknown risks and uncertainties, which could cause actual results to differ materially from the results, projected, expected or implied by the forward-looking statements, some of which are beyond the Company's control, that may cause the Company's actual results, performance or achievements, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. In addition, specific consideration should be given to various factors described in Part I, Item 1A. "Risk Factors" and Part II, Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations," and elsewhere in our Annual Report on Form 10-K for the year ended December 31, 2014, and other documents, on file with the Securities and Exchange Commission. The

Company undertakes no obligation to publicly revise any forward-looking statements or cautionary factors, except as required by law.
