

## ORBCOMM to Host Third Quarter 2010 Results Conference Call

**Fort Lee, NJ, November 2, 2010** - ORBCOMM Inc. (Nasdaq: ORBC), a global satellite data communications company focusing on two-way Machine-to-Machine (M2M) communications and leading provider of space-based Automatic Identification System (AIS) services, today announced that its senior management team will host a conference call to review results of its third quarter ended September 30, 2010, on Tuesday, November 9, 2010, at 10:30 AM ET. ORBCOMM's financial results for the third quarter 2010 will be released on Tuesday, November 9, 2010.

Chief Executive Officer, Marc Eisenberg, and Chief Financial Officer, Robert Costantini, will host the conference call.

Participants should dial 1-877-941-1465 at least ten minutes prior to the start of the call. International callers should dial 480-629-9678. To hear a live web simulcast or to listen to the archived web cast following completion of the call, please visit the Company's web site at [www.orbcomm.com](http://www.orbcomm.com), under the "About Us" section, select "Investor Relations" and select "Presentations and Webcasts." to access the link to the call. Refer to conference identification number 4381798. To listen to a telephone replay of the conference call, please dial 1-800-406-7325 (international callers should dial 303-590-3030) and enter reservation identification number 438178. The replay will be available from approximately 12:00 PM ET on Tuesday, November 9, 2010, through 11:59 PM ET on Tuesday, November 16, 2010.

### **About ORBCOMM Inc.**

ORBCOMM is a leading global satellite data communications company, focused on Machine-to-Machine (M2M) communications. Its customers include Caterpillar Inc., Doosan Infracore America, Hitachi Construction Machinery, Hyundai Heavy Industries, Asset Intelligence a division of I.D. Systems, Inc., Komatsu Ltd., Manitowoc Crane Companies, Inc., and Volvo Construction Equipment among other industry leaders. ORBCOMM is the leading commercial provider of global AIS data from space, with users that include the U.S. Coast Guard, U.S. Navy, U.S. Department of Transportation, U.S. Customs and Border Protection and Lloyds' Register-Fairplay, a division of IHS, among other government and commercial organizations. By means of a global network of low-earth orbit (LEO) satellites and accompanying ground infrastructure, ORBCOMM's low-cost and reliable two-way data communication services track, monitor and control mobile and fixed assets in four core markets: commercial transportation; heavy equipment; industrial fixed assets; and marine/homeland security. ORBCOMM based products are installed on trucks, containers, marine vessels, locomotives, backhoes, pipelines, oil wells, utility meters, storage tanks and other assets. ORBCOMM is headquartered in Fort Lee, New Jersey and has its network control center in Dulles, Virginia. For more information, visit [www.orbcomm.com](http://www.orbcomm.com).
