

ORBCOMM ACQUIRES THE SENS ASSET TRACKING OPERATION

*Expands ORBCOMM's Offerings with One-Way Satellite Products and Services
Utilizing the Globalstar Network*

Rochelle Park, NJ, October 1, 2013 – ORBCOMM Inc. (Nasdaq: ORBC), a global provider of Machine-to-Machine (M2M) solutions, today announced that it has completed the acquisition of Comtech Mobile Datacom Corporation's (Comtech) Sensor Enabled Notification System (SENS) operation, which includes satellite hardware, network technology and web platforms. SENS is a market leader in providing one-way satellite products and services to more than 20,000 subscribers worldwide.

This acquisition supports ORBCOMM's multi-network operator strategy and strengthens ORBCOMM's position as the leading provider of satellite and cellular communications for the M2M industry. In addition, this opportunity complements ORBCOMM's recently acquired GlobalTrak business, which uses Comtech's SENS technology for its military container tracking applications in Pakistan and Afghanistan, its fuel monitoring program in support of the Defense Logistics Agency as well as other global deployments.

SENS provides secure tracking and messaging products and services to the government, defense, transportation, logistics, and oil & gas industries, all of which are key vertical markets for ORBCOMM. The SENS system, which consists of satellite-based tracking devices, a network hub and an Internet-based back-office platform, enables customers to retrieve and view critical data from the field via the Globalstar satellite network.

"The SENS acquisition expands ORBCOMM's portfolio of services by adding new offerings to our existing suite of satellite and cellular network services," said Marc Eisenberg, Chief Executive Officer of ORBCOMM. "We see this market segment growing rapidly based on customers that can benefit from the Globalstar network's reliable, low-power, low-cost, one-way satellite data service for short messaging along with its unique advantages in power management."

ORBCOMM will integrate the SENS operation and continue to support existing SENS customers, while marketing SENS products and services through ORBCOMM's global distribution channels.

About ORBCOMM Inc.

ORBCOMM is a global provider of Machine-to-Machine (M2M) solutions. Its customers include Caterpillar Inc., Doosan Infracore America, Hitachi Construction Machinery, Hyundai Heavy Industries, I.D. Systems, Inc., Komatsu Ltd., Cartrack (Pty.) Ltd., and Volvo Construction Equipment, among other industry leaders. By means of a global network of low-earth orbit (LEO) satellites and accompanying ground infrastructure as well as our Tier One cellular

partners, ORBCOMM's low-cost and reliable two-way data communication services track, monitor and control mobile and fixed assets in our core markets: commercial transportation; heavy equipment; industrial fixed assets; marine; and homeland security.

ORBCOMM is an innovator and leading provider of tracking, monitoring and control services for the transportation market. Under its ReeferTrak[®], GenTrak[™], GlobalTrak[®], and CargoWatch[®] brands, the company provides customers with the ability to proactively monitor, manage and remotely control their cold chain and dry transport assets. Additionally, ORBCOMM provides Automatic Identification System (AIS) data services for vessel tracking and to improve maritime safety to government and commercial customers worldwide. ORBCOMM is headquartered in Rochelle Park, New Jersey and has its network control center in Dulles, Virginia. For more information, visit www.orbcomm.com.

About Comtech Mobile Datacom Corporation

Comtech Mobile Datacom Corporation, a Germantown, Maryland-based company, is engaged in the provision of satellite-based packet data communication systems and location and messaging services through the use of advanced communication and network technology.
