"In 2017 we made investments in products and deployments that solidify our leadership position in industrial IoT solutions to serve many of the largest players in transportation, heavy equipment, marine and other key markets," said Marc Eisenberg, ORBCOMM's Chief Executive Officer. "With a continued focus on innovation, execution and scale, we added many new customers, products and markets to our business this year and have built a strong pipeline of new opportunities, which are setting the stage for growth in 2018 and beyond."

"Fourth quarter Revenue growth was 62% reflecting record revenues for services and products. Service Revenues exceeded \$39 million, growing 34% over last year and 12% from Q3, reflecting strong subscriber additions in 2017. The Company's effort to install units over the last few quarters is translating to solid growth of recurring Service Revenues," said Robert Costantini, Chief Financial Officer of ORBCOMM. "Costs in the quarter were driven higher by investments made for product deployments, and the acquisition of Blue Tree that was a key addition to our transportation product portfolio."

Recent Highlights:

Financial Highlights

- For Q4 of 2017, record Total Revenues were \$76.0 million, up 62% year-over-year. Service Revenues of \$39.3 million were up 34%, and Product Sales rose 111% to \$36.7 million. For 2017, Total Revenues were \$254.2 million versus \$186.7 million in 2016, increasing 36%. Service Revenues grew 20% and Product Sales 61% for the full year.
- Net Loss was (\$7.5) million for the fourth quarter of 2017, versus a (\$3.2) million Loss in 2016. Customer installations, the recent acquisitions, and higher Interest Expense of (\$2.7) million increased the loss. For 2017, a Net Loss of (\$61.3)

million versus (\$23.5) million in 2016, increased from a non-cash satellite impairment charge of (\$31.2) million that was (\$20.5) million higher than the 2016 impairment charge, along with higher operating costs described above.

- Q4 2017 Adjusted EBITDA of \$9.3 million, or 12.2% of Total Revenues, was (\$3.2) million lower than the prior year period. Adjusted EBITDA was impacted by nearly \$4.0 million due to higher installation and service delivery costs, lower margin Product Sales, increase in inventory reserves, and incremental costs for the recent acquisition. For 2017, Adjusted EBITDA totaled \$44.9 million, down (\$2.4) million or 5% compared to the prior year.
- Net subscriber communicator additions for ORBCOMM were over 127,000 in Q4 of 2017, including 37,000 from Blue Tree, yielding organic net additions of over 90,000 units in the quarter. This is a record number of net additions propelling our subscriber base to over 2 million total billable subscriber communicators in ORBCOMM's base in the quarter. The year ended at 2,026,000, a 17.6% increase year-over-year.

Product Highlights

- In 2017, acquisitions played a key role in expanding and enhancing our solutions portfolio, with the acquisitions of inthinc, Inc. in June 2017 and Blue Tree Systems Limited in October 2017. The acquisitions added to our transportation portfolio focused on vehicle fleet management, with offerings for in-cab and fleet vehicle solutions. Together with inthinc and Blue Tree, ORBCOMM provides the most complete, integrated transportation solution offering – from in-cab fleet vehicles to refrigerated assets to dry vans – all visible in a single platform.

Financial Results and Highlights

Revenues

Total Revenues of \$76.0 million for the fourth quarter of 2017 were a record, up \$29.1 million or 62.2% compared to \$46.8 million during the same period of 2016. Total Revenues for the full year 2017 were \$254.2 million, increasing 36.1% compared to \$186.7 million in 2016, with Service Revenues adding \$22.1 million and Product Sales adding \$45.4 million.

Service Revenues of \$39.3 million in the fourth quarter of 2017, were up \$9.9 million or 33.6% over the prior year period to a quarterly record. Growth was driven organically at 10.8% as well as through acquisitions. Full Year Service Revenues were \$134.9 million, up 19.5%.

Product Sales of \$36.7 million reached a new high during the fourth quarter of 2017, compared to \$17.4 million in the fourth quarter last year, increasing \$19.3 million or 110.7%. Most of the growth was organic in the Transportation, Containers, and Heavy Equipment markets. Product Sales for the full year 2017 grew \$45.4 million or 61.5% to \$119.3 million.

Cost of Revenues and Operating Expenses

Total Cost of Revenues and Operating Expenses for the fourth quarter of 2017 were \$80.4 million compared to \$47.5 million in the same period of 2016, increasing largely from higher sales and the costs added from the recent acquisitions. Direct Costs of Revenue were higher due to installation costs, terrestrial carrier costs, and an inventory reserve adjustment. Selling, General & Administrative and Product Development costs were higher from increases in labor costs and employees added from the acquisitions. For 2017, Total Cost of Revenues and Operating Expenses of \$295.1 million were up compared to \$201.2 million for the same reasons described above.

Impairment Loss – satellite network

For 2017 results include an impairment charge of (\$31.2) million to write-off the net book value of three in-orbit OG2 satellites as of September 30, 2017 that lost communication, an increase of (\$20.5) million over 2016 when one satellite impairment charge was taken. The loss of these three satellites has not had, and is not expected to have, a material effect on network communications services or our financial results going forward.

Loss Before Income Taxes, Net Income (Loss), and Earnings Per Share

Loss Before Income Taxes for the fourth quarter of 2017 was (\$9.1) million versus (\$2.9) million in 2016. The quarterly Loss widened this year due to higher costs for installations and service delivery, along with operating costs for the recent acquisitions, and higher Interest Expense of (\$2.7) million. For 2017, the Loss Before Income Taxes expanded to (\$61.6) million compared to (\$22.7) million in 2016, reflecting higher Selling, General & Administrative and Product Development costs of (\$11.5) million, increases in Interest Expense of (\$8.6) million, Loss on Debt Extinguishment of (\$3.9) million, and an increased satellite Impairment Loss of (\$20.5) million.

Net Loss attributable to ORBCOMM Inc. Common Stockholders was (\$7.5) million for the fourth quarter of 2017, compared to the (\$3.2) million loss in 2016. Basic EPS was a loss of (\$0.10) per share for the fourth quarter of 2017 versus a loss of (\$0.05) per share in 2016, mainly due to higher operating expenses, and increased higher Interest Expense. Net Loss attributable to ORBCOMM Inc. Common Stockholders was (\$61.3) million for the full year 2017, compared to the (\$23.5) million loss in 2016. Basic EPS was a loss of (\$0.84) per share for 2017 versus a loss of (\$0.33) per share for 2016, mainly due to the higher impairment charge.

EBITDA and Adjusted EBITDA

EBITDA for the fourth quarter of 2017 was \$6.8 million compared to \$10.5 million in 2016, a decrease of (\$3.6) million. For the full year 2017, EBITDA was \$4.6 million compared to \$28.5 million in 2016, a decrease of (\$24.0) million.

Adjusted EBITDA was \$9.3 million, or 12.2% of Total Revenues for the fourth quarter versus \$12.5 million in 2016, a decrease of (\$3.2) million.

Adjusted EBITDA was down due to lower Service and Product margins and higher operating expenses, as well as other costs to operate the acquired companies. For 2017, Adjusted EBITDA was \$44.9 million, or 17.6% of Total Revenues compared to \$47.3 million for 2016, a decrease of (\$2.4) million.

EBITDA and Adjusted EBITDA are non-GAAP financial measures used by the Company to measure operating performance and the quality of earnings. Please see the financial tables at the end of the release for a reconciliation of EBITDA and Adjusted EBITDA.

Balance Sheet & Cash Flow

At December 31, 2017, Cash and Cash Equivalents totaled \$34.8 million, compared to \$25.0 million at December 31, 2016, increasing \$9.8 million. Cash increased largely due to funds secured from the issuance of \$250 million of Senior Secured Notes, less \$150 million to repay existing debt, and \$15 million provided by a private placement of common stock, less the net cash used in operations of (\$5.0) million for 2017 that was mostly for increases in working capital, cash invested in Capital Expenditures of (\$27.4) million, and (\$67.9) million used to acquire *inthinc, Inc.* and *Blue Tree Systems Limited*.

ORBCOMM publicly reports its financial information in accordance with accounting principles generally accepted in the United States of America ("US GAAP"). To facilitate external analysis of the Company's operating performance, ORBCOMM also presents financial information that are considered "non-GAAP financial measures" under Regulation G and related reporting requirements promulgated by the Securities and Exchange Commission. Non-GAAP measures should be considered in addition to, and not as a substitute for, or superior to, Net Income or other measures of financial performance prepared in accordance with GAAP and may be different than those presented by other companies. EBITDA, Adjusted EBITDA and Adjusted EBITDA Margin are not performance measures calculated in accordance with GAAP and are therefore considered non-GAAP measures. A reconciliation table is presented above.

EBITDA is defined as earnings attributable to ORBCOMM Inc. before interest income (expense), loss on debt extinguishment, provision for income taxes and depreciation and amortization. ORBCOMM believes EBITDA is useful to its management and investors in evaluating operating performance because it is one of the primary measures used to evaluate the economic productivity of the Company's operations, including its ability to obtain and maintain its customers, its ability to operate its business effectively, the efficiency of its employees and the profitability associated with their performance. It also helps ORBCOMM's management and investors to meaningfully evaluate and compare the results of the Company's operations from period to period on a consistent basis by removing the impact of its financing transactions and the depreciation and amortization impact of capital investments from its operating results. In addition, ORBCOMM management uses EBITDA in presentations to its board of directors to enable it to have the same measurement of operating performance used by management and for planning purposes, including the preparation of the annual operating budget.

The Company also believes that Adjusted EBITDA, defined as EBITDA adjusted for stock-based compensation expense, noncontrolling interests, impairment loss, non-capitalized satellite launch and in-orbit insurance, insurance recovery, and acquisition-related and integration costs, is useful to investors to evaluate the Company's core operating results and financial performance because it excludes items that are significant non-cash or non-recurring expenses reflected in the Condensed Consolidated Statements of Operations. Adjusted EBITDA Margin equals Adjusted EBITDA divided by Total Revenues.

Net Loss – Ex-Items attributable to ORBCOMM Inc. Common Stockholders is defined as Net Loss attributable to ORBCOMM Inc. Common Stockholders, excluding Impairment Loss-satellite network, and Acquisition-related and integration costs. Basic EPS – Ex-Items is defined as Basic EPS excluding Impairment Loss-satellite network, and Acquisition-related and integration costs. Net Loss – Ex-Items attributable to ORBCOMM Inc. Common Stockholders and Basic EPS – Ex-Items are non-GAAP financial measures used by the Company. These non-GAAP financial measures are used as a means to evaluate period-to-period comparisons. These non-GAAP measures are presented in this press release as management believes that they will provide investors with a means of evaluating, and an understanding of how management evaluates, the Company's performance and results on a comparable basis that is not otherwise apparent on a GAAP basis, since many non-recurring, infrequent or non-cash items that management believes are not indicative of the core performance of the business may not be excluded when preparing financial measures under GAAP. These non-GAAP measures should not be considered in isolation from, as substitutes for, or superior to financial measures prepared in accordance with GAAP, or may be different from similarly titled measures reported by other companies. A reconciliation table is presented above.
