Part II Organizational Action Attach additional statements if needed. See back of form for additional questions.

14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ▶ The AES Corporation made a cash distribution of \$.05 per share of common stock on February 18, 2014 to its shareholders of record on February 3, 2014.

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ▶ The AES Corporation made a cash distribution of \$.05 per share on February 18, 2014. At this time, and based upon reasonable assumptions by The AES Corporation, this distribution is expected to be a non-taxable return of capital, thereby reducing a shareholder's basis by \$.05 per share. To the extent the tax basis reduction is in excess of a shareholder's basis, the excess should be treated as capital gain.

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ▶ At this time, and based upon reasonable assumptions by The AES Corporation, the February 18, 2014, \$.05 per share cash distribution is expected to be 100% return of capital as The AES Corporation is not expected to have any earnings and profits (current or accumulated) as of December 31, 2014. Pursuant to applicable Treasury Regulations under Section 6045B, if these assumptions turn out to be incorrect, The AES Corporation will file a corrected Form 8937 within 45 days of such determination.
