

CORPORATE FACT SHEET

Business Profile

Advanced Energy (AE) has devoted four decades to perfecting power for its global customers. We design and manufacture highly engineered precision power conversion, measurement and control solutions for mission-critical applications and processes.

Our products enable customer innovation in complex applications for a wide range of industries including semiconductor equipment, industrial, manufacturing, telecommunications, data center computing, and medical.

With deep applications know-how and responsive service and support across the globe, we build collaborative partnerships to meet rapid technological developments, propel growth for our customers, and innovate the future of power.

OUR MISSION

Enable customer innovation by delivering highly-engineered, application-critical, precision power solutions.

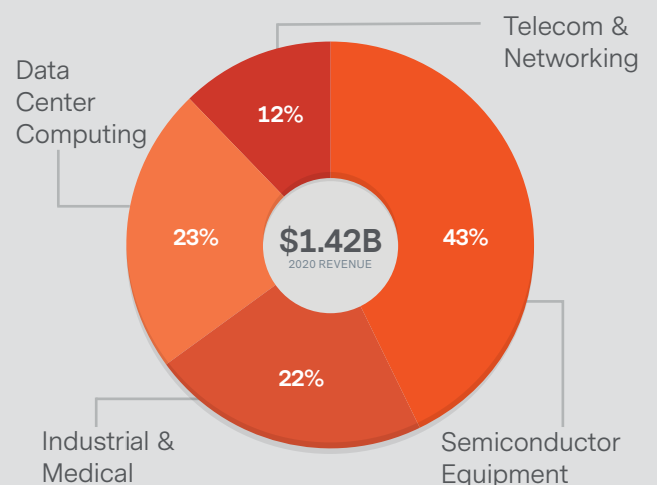

OUR VISION

Drive sustainable growth as the recognized world leader and trusted partner in precision power technology and applications.

OUR STRATEGY

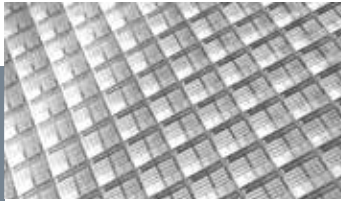

Drive growth through products and services that are needed for critical power applications in diverse markets and that are differentiated through superior capabilities and economic value.

2020 REVENUE

PURE PLAY POWER LEADER

Powering the 4th Industrial Revolution

SEMICONDUCTOR EQUIPMENT

Dry Etch & Strip, Deposition, Thermal, Epi, Implant, Inspection & Metrology, Semi ATE, Advanced Packaging

INDUSTRIAL & MEDICAL

Medical, Life Sciences, Analytical Instruments, Test & Measurement, Material Processing, Thermal Processing, Motion Control, Robotics, Horticulture

TELECOM & NETWORKING

Base Station, Tower Radio, 4G LTE & 5G Cellular Infrastructure, Enterprise Networking, Wireless & Wireline Communication

DATA CENTER COMPUTING

Hyperscale, Data Center, Cloud & Edge Computing, Enterprise Server & Storage Systems

Technology Brands

ARTESYN · EXCELSYS · HITEK · IMPAC · LUMASENSE · MIKRON
MONROE · SEKIDENKO · TREK · ULTRAVOLT · VERSATILE POWER
