

# Energy & Emissions Goal\*

*Reduce absolute scope 1 and scope 2 GHG emissions by more than 40% by 2025 from a 2007 baseline*

## BENEFITS

- Reduce energy consumption
- Save on operational costs
- Manage our carbon footprint
- Increase use of renewables
- Reduce carbon-driven processes
- Create beneficial business drivers

*\*Clarification of existing goal*

*\*\* Emissions data through 2019*
