Notes to the Interim Condensed Consolidated Financial Statements

For the periods ended December 31, 2024 and 2023 (unaudited - in thousands of U.S. dollars and shares, except per share amounts, unless otherwise stated)

1. Nature of Operations

Real Matters Inc. ("Real Matters" or the "Company") is a leading technology and network management company providing appraisal and title services through its Solidifi brand to the mortgage lending industry in the U.S. and appraisal and insurance inspection services to the mortgage lending and insurance industries in Canada through its Solidifi and iv3 brands, respectively.

Real Matters' head office and Canadian operations are located at 50 Minthorn Boulevard, Markham, Ontario and its U.S. subsidiaries operate at the Company's principal offices in Buffalo, New York and Middletown, Rhode Island.

2. Basis of Presentation and Material Accounting Policies

The unaudited interim condensed consolidated financial statements ("financial statements") are presented in thousands of U.S. dollars.

Statement of compliance

The financial statements have been prepared in accordance with IFRS® Accounting Standards ("IFRS Accounting Standards") under IAS 34 "Interim Financial Reporting" as issued by the International Accounting Standards Board ("IASB"). Accordingly, certain information and disclosures normally included in annual financial statements prepared in accordance with IFRS Accounting Standards, as issued by the IASB, have been omitted or condensed. These financial statements should be read in conjunction with the annual audited consolidated financial statements, and notes thereto, for the years ended September 30, 2024 and 2023 (the "annual financial statements").

These financial statements were authorized for issue by the board of directors on January 29, 2025.

Use of estimates and judgments

The preparation of these financial statements requires management to employ certain accounting estimates and judgments in the application of the Company's accounting policies. The areas involving significant estimate and judgment are set out in Note 2 to the Company's annual financial statements. There have been no notable changes in the methods employed by management to determine significant estimates and judgments since September 30, 2024, except as outlined in Note 3.

Summary of material accounting policies

The material accounting policies and methodologies applied by the Company in preparing these financial statements are the same as those outlined in the most recent annual financial statements, except as outlined in Note 3.

Seasonality

Residential mortgage origination volumes in North America are a key driver of the Company's financial performance and are influenced by cyclical trends and seasonality. Cyclical trends include changes in interest rates, refinancing rates, the capacity of lenders to underwrite mortgages, house prices, housing stock, demand for housing, the availability of funds for mortgage loans, credit requirements, regulatory changes, household indebtedness, employment levels and the general health of the North American economy. The Company's transaction-based revenues for appraisal services in our U.S. Appraisal and Canadian segments are also impacted by the seasonal nature of the residential mortgage industry, which typically sees home buyers purchase more homes in the Company's third and fourth fiscal quarters, representing the three months ending June 30 and September 30, respectively. The results reported in these financial statements should not be regarded as an indication of the results expected for the entire year.

3. Recent Accounting Pronouncements

Classification of Liabilities as Current or Non-Current

In January 2020, the IASB issued "Classification of Liabilities as Current or Non-Current (Amendments to IAS 1)" which provided a more general approach to the classification of liabilities under IAS 1 based on the contractual arrangements in place at the reporting date. The amendment clarified that the classification of liabilities as current or non-current should be based on rights that are in existence at the end of the reporting period. Only rights to defer settlement by at least 12 months, which are in place at the end of the reporting period, affect the classification of a liability. Classification is unaffected by an entities' expectation to exercise its right to defer settlement of a liability.

In October 2022, the IASB issued "Non-current liabilities with covenants (Amendments to IAS 1)" which clarified that only covenants that an entity is required to comply with as of the reporting date affect the classification of a liability as current or non-current. Entities are required to disclose that non-current liabilities with covenants could become repayable within 12 months from the reporting date.

These amendments are to be applied retrospectively and are effective for annual reporting periods beginning on or after January 1, 2024. The Company applied these amendments to the classification of liabilities on October 1, 2024, and adopting these amendments did not have a significant impact on the Company's financial statements.

Presentation and Disclosure in Financial Statements

In April 2024, the IASB issued IFRS 18 - "Presentation and Disclosure in Financial Statements" to achieve more transparent and comparable information about the financial performance of similar entities. IFRS 18 introduces new requirements and guidance on presentation and disclosure in the financial statements including the following:

- requirements to improve the structure and comparability of the income statement through the presentation of income and expenses within five defined categories – operating, investing, financing, income tax and discontinued operations. Entities will also be required to present new defined subtotals, including operating profit;
- introduction of disclosures about management-defined performance measures to be explained and included in a separate note to the financial statements;
- enhanced guidance on organizing information and whether to provide information in the financial statements or the notes while ensuring material information is not obscured;
- improved transparency about operating expenses.

IFRS 18 replaces IAS 1 - "Presentation of Financial Statements" but carries forward many requirements from IAS 1 unchanged. The standard is effective for annual reporting periods beginning on or after January 1, 2027, but earlier application is permitted. The Company is currently assessing the impact of this standard on the financial statements and expects to apply this standard on October 1, 2027.

Amendments to the Classification and Measurement of Financial Instruments

In May 2024, the IASB issued "Amendments to the Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7)" to address matters identified during the post-implementation review of classification and measurement requirements of IFRS 9 – "Financial Instruments". The IASB provided clarification to improve the understandability of the following: derecognition of a financial liability settled through electronic transfer, classification of certain financial assets and disclosures related to investments in equity instruments designated at fair value through other comprehensive income and contractual terms that could change the timing or amount of contractual cash flows.

Real Matters Inc.

Notes to the Interim Condensed Consolidated Financial Statements

For the periods ended December 31, 2024 and 2023 (unaudited - in thousands of U.S. dollars and shares, except per share amounts, unless otherwise stated)

These amendments are effective for annual reporting periods beginning on or after January 1, 2026 on a retrospective basis but restatement of prior periods is not required. The Company expects to apply these amendments on October 1, 2026, and is currently assessing the impact on the Company's financial statements.

4. Net Income (Loss) per Weighted Average Share

The following table outlines the components used to calculate basic and diluted net income (loss) per share attributable to common shareholders:

	Three months ended December 31	
	2024	2023
Net income (loss)	\$ 2,280	\$ (3,598)
Weighted average number of shares, basic	74,009	72,961

Real Matters Inc.

Notes to the Interim Condensed Consolidated Financial Statements

For the periods ended December 31, 2024 and 2023 (unaudited - in thousands of U.S. dollars and shares, except per share amounts, unless otherwise stated)

The following table outlines the hierarchical measurement categories for the fair value of financial assets or liabilities. At December 31, 2024 and September 30, 2024, financial assets or liabilities had the following estimated fair values expressed on a gross basis:

	December 31, 2024			
	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant un- observable inputs (Level 3)	Total
Other assets - total return swaps	\$ -	\$ 1,099	\$ -	\$ 1,099
	\$ -	\$ 1,099	\$ -	\$ 1,099

	September 30, 2024			
	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant un- observable inputs (Level 3)	Total
Other assets - total return swaps	\$ -	\$ 2,903	\$ -	\$ 2,903
	\$ -	\$ 2,903	\$ -	\$ 2,903

The hierarchical measurement categories for financial assets and liabilities, recognized at fair value on a recurring basis, are re-assessed at the end of each reporting period.

For the three months ended December 31, 2024 and 2023, there were no transfers between levels or changes to the valuation techniques used to estimate fair value.

The estimated fair values of financial instruments are calculated using available market information, and commonly accepted valuation methods. Considerable judgment is required to interpret market information used to develop these estimates. Accordingly, these fair value estimates are not necessarily indicative of the amounts the Company, or counterparties to the instruments, could realize in a current market exchange.

Total return swaps

The Company's total return swaps are recorded at estimated fair value based on quotes received from the financial institution that is counterparty to the agreements. The Company verifies the reasonableness of the quotes by comparing them to share price movements adjusted for interest using a market rate of interest specific to the terms of the underlying contract. The use of different assumptions and or estimation methods could result in differing estimates of fair value, which the Company believes would not be material.

Real Matters Inc.

Notes to the Interim Condensed Consolidated Financial Statements

For the periods ended December 31, 2024 and 2023 (unaudited - in thousands of U.S. dollars and shares, except per share amounts, unless otherwise stated)

The Company entered into the following total return swaps outlined in the table below:

Total return swaps

Date entered	Notional amount	Share price	Number of units	Effective date	Expiration date
December 2022	C\$ 2,345	C\$ 4.21	557	December 2022	December 2025
November 2023	C\$ 2,029	C\$ 5.78	351	December 2023	December 2026
November 2024	C\$ 2,017	C\$ 6.42	314	November 2024	November 2027

Estimated fair value

The carrying value of cash and cash equivalents, trade and other receivables, trade payables and accrued charges approximate their fair values due to the relatively short maturities of these instruments.

10. Segmented Reporting

The Company conducts its business through three reportable segments: U.S. Appraisal, U.S. Title and Canada. The Company reports segment information based on internal reports used by the Chief Operating Decision Maker ("CODM") to make operating and resource allocation decisions and to assess performance. The CODM is the Chief Executive Officer of the Company.

The U.S. Appraisal segment provides residential mortgage appraisals for purchase, refinance, home equity and default transactions through its Solidifi brand.

The U.S. Title segment serves the title market by providing various title services for refinance, purchase, home equity, short sale and real estate owned ("REO") transactions to financial institutions through its Solidifi brand. As an independent title agent, the Company provides services required to close a mortgage transaction, including title search, curative, closing and escrow services and title policy issuance. Diversified title services represent software subscription fees earned from other title insurance agencies and mortgage lenders.

The Canadian segment's primary service offerings include residential mortgage appraisals for purchase, refinance and home equity transactions provided through its Solidifi brand. Additionally, the Company provides insurance inspection services to property and casualty insurers across Canada through its iv3 brand.

The Company excludes corporate costs in the determination of each operating segment's performance. Corporate costs include certain executive and employee costs, legal, finance, internal audit, treasury, investor relations, compliance, human resources, technical and software development, corporate development and other administrative support function costs.

The CODM does not evaluate operating segments using discrete asset information and the Company does not specifically allocate assets to operating segments for internal reporting purposes.

The accounting policies for each operating segment are the same as those described in the basis of presentation and material accounting policies note, and applicable policies outlined in the recent accounting pronouncements note, Notes 2 and 3, respectively. The Company evaluates segment performance based on revenues, net of transaction costs.
