

GAS RATE CASE U-21981*

On December 16, 2025, Consumers Energy filed an application with the Michigan Public Service Commission seeking an increase in its rates for the distribution of natural gas of \$240 million based on a projected test year for the 12-month period ending October 31, 2027. The request seeks authority to recover costs related to new investment that will allow Consumers Energy to fund critical capital infrastructure and key financial and operational items necessary to implement the Company's Natural Gas Delivery Plan. This plan reflects the Company's commitment to providing a safe, reliable, affordable, and increasingly clean natural gas system for its customers. The proposed overall rate of return is based on a 10.25% authorized return on equity. The \$240 million total request is detailed below.
