

Building a Sustainable Energy Future for Michigan

We are passionate about protecting the planet as we power Michigan. That's why our 8,700 employees work each day to achieve world class performance and deliver hometown service for you.

In 2019, we launched our Clean Energy Plan, a 20-year strategy to safeguard Michigan's environment while supplying more clean energy to our homes and businesses.

We plan to achieve net zero carbon emissions, end coal use and dramatically increase clean energy resources by 2040. Visit [MICleanEnergy.com](https://www.micleanenergy.com) to Join the Movement by participating in one of our many programs designed to help you protect the environment while saving energy and money.

Consumers Energy

Count on Us[®]

Pursuing the Triple Bottom Line

Consumers Energy is the largest combination utility in Michigan, providing natural gas and/or electricity to 6.7 million residents. With your help, we're empowering people, protecting the planet and promoting prosperity. Learn how, together with your help, we supported Michigan in 2019.

People

Donated \$11.5 million to Michigan nonprofits. This support went to organizations and efforts that help

people, protect the planet and promote prosperity.

People: \$6 million
Planet: \$1.3 million
Prosperity: \$4.2 million
