The Four ESG Pillars of CPB

ESG stands for environmental, social, and governance. ESG is a framework to integrate environmental, social, and governance risks and opportunities into a company's strategy to create value and build long-term financial sustainability. At CPB, we have four ESG pillars:

Corporate Governance Protect and enhance the interests of shareholders with strong Board and executive leadership and sound corporate governance and risk management practices.	Support of the Community Be a leader in support of small business and in philanthropic initiatives across Hawaii.	Support of Employees Recruit and retain an exceptional, diverse workforce and maintain commitment to the health, well-being and success of these employees.	Environmental Initiatives Preserve the natural resources of our islands by implementing energy efficiency and other "green" practices across the organization, and setting targets to increase our customer base and financing in projects in the renewable energy and climate change adaptation sectors.
