# Cautionary Statements

## FORWARD LOOKING STATEMENTS

This presentation contains forward looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, reflecting management's current views regarding future business, strategy, industry conditions, financial performance, and expected results. These statements include, among others, statements regarding the Company's outlook, value add and capital allocation strategy and framework, target markets, strategic objectives and opportunities, our ability to successfully develop and implement AI technologies, results of AI adoption, anticipated annual financial impact and related execution velocity and margin expansion, realization of opportunities to harvest gains on well-seasoned assets and recycle capital into our value-add earnings initiatives, diversify earnings and turn available capacity on our balance sheet into a revenue center via a DST lending platform (and statements and projections related to such emerging fee income platform), the transition from synthetic rate protection to environmental rate relief, FY 2026 guidance and related estimates and assumptions, annualized savings, that the portfolio is positioned well for leasing season, target acquisition and dispositions, Same Store NOI CAGR, estimated annual AI spend, NexPoint Intelligence predictive analytics roadmap, NAV, assumptions and estimates related to NAV, estimated annual run rate, supply forecast data, deliveries are forecasted to decline through 2029 and potential undersupply by 2028, expected future demand demographics, rental rate CAGR for 2027 through 2029, market-by-market outlook data, 2026 full year guidance summary and related inputs such as diluted share count estimate, estimated Q2 2026 and full year 2026 NOI guidance and related estimates regarding net loss for the second quarter and full year of 2026 and shares outstanding share repurchases, financing strategies, expected transaction terms and timing, operational and value add initiatives, projected rent growth, supply and demand dynamics, migration trends, portfolio strategy, and expected performance outcomes.

Forward looking statements are subject to risks and uncertainties that could cause actual results to differ materially from expectations. Such statements are identified by words such as "expect," "intend," "estimate," "target," "trend," "may," "should," "believe," "seek," "pursue," "anticipate," "signal," "opportunity," and similar expressions. Factors that may affect results are discussed in the Company's annual and quarterly reports filed with the SEC. These statements speak only as of the date made, and the Company undertakes no obligation to update them except as required by law. Past performance does not guarantee future results, and performance in the periods shown may not be indicative of future or comparable market conditions.

## NON-GAAP FINANCIAL MEASURES

This presentation includes non GAAP financial measures, including net operating income ("NOI"), funds from operations attributable to common stockholders ("FFO"), FFO per diluted share, Core FFO, Core FFO per diluted share, adjusted FFO ("AFFO"), AFFO per diluted share, and net debt. Non GAAP financial measures are numerical measures of financial performance that excludes or includes amounts so as to be different than the most directly comparable measures calculated and presented in accordance with GAAP in the statements of income (loss), balance sheets or statements of cash flows of the Company.

NOI is used by management and investors to evaluate property operating performance and trends, compare properties, and estimate property values. NOI is derived from net income (loss) and adjusted for items such as interest expense, depreciation and amortization, gains or losses on real estate sales, certain corporate and property level expenses not reflective of ongoing property operations, casualty related items, debt extinguishment and modification costs, and equity in earnings of affiliates. "Same Store NOI" represents NOI for properties owned for the entirety of comparable periods. We view Same Store NOI as an important measure of the operating performance of our properties because it allows us to compare operating results of properties owned for the entirety of the current and comparable periods and therefore eliminates variations caused by acquisitions or dispositions during the periods.

FFO is calculated in accordance with the definition established by NAREIT. Our presentation differs slightly in that we begin with net income (loss) before adjusting for amounts attributable to redeemable noncontrolling interests in NexPoint Residential Trust Operating Partnership, L.P. (the "OP") and we show the combined amounts attributable to such noncontrolling interests as an adjustment to arrive at FFO attributable to common stockholders. Core FFO further adjusts FFO to remove items not indicative of ongoing operating performance, including casualty related items, debt extinguishment and modification costs, amortization of deferred financing costs, mark to market gains or losses related to interest rate cap agreements not designated as hedges for accounting purposes, and the noncontrolling interests (as described above) related to these items. Beginning in the third quarter of 2024, the Company adjusted Core FFO to remove (1) the amortization of all deferred financing costs instead of those solely related to short-term debt financing and (2) mark to market gains or losses related to interest rate cap agreements not designated as hedges for accounting purposes. Prior periods have been recast to conform to current presentations.

AFFO further adjusts Core FFO for items such as equity based compensation expense and related noncontrolling interests. There is no industry standard definition of AFFO and practice is divergent across the industry. Net debt is calculated as total debt outstanding less cash, cash equivalents, and restricted cash held for value add and green improvement programs.

Management believes these non GAAP measures, when presented alongside GAAP results, enhance investor understanding of operating performance and leverage and facilitate comparisons among REITs. However, these measures do not represent cash flows from operations, net income (loss), or total debt as defined by GAAP, should not be considered substitutes for those measures, and may not be comparable to similarly titled measures reported by other REITs. We do not provide a reconciliation of forward-looking NOI impact or the most directly comparable forward-looking GAAP measure because we cannot predict with a reasonable degree of certainty and without unreasonable efforts certain components or excluded items that are inherently uncertain and depend on various factors. For these reasons, we are unable to assess the potential significance of the unavailable information. For additional information and reconciliations of NOI, FFO, Core FFO and AFFO, see the first quarter 2026 Financial Supplement available at [nxrt.nexpoint.com](http://nxrt.nexpoint.com) and the Company's Annual Reports on Form 10-K and other SEC filings.

## ADDITIONAL INFORMATION

For additional information, see our filings with the SEC. Our filings with the SEC are available on our website, [www.nxrt.nexpoint.com](http://www.nxrt.nexpoint.com), under the "Financials" tab. Investors are urged to read our Annual Report on Form 10-K and our other filings with the SEC, including our Forms 10-Q and Forms 8-K, in their entirety.

## INVESTMENT THESIS

# Why NXRT Now

## 01

### Building an AI-Native Operating Platform

#### NexPoint Intelligence

- We are working to deploy AI technologies to optimize performance and deliver best-in-class customer service and resident satisfaction
- A proprietary three-layer AI Stack
  - Data & Intelligence Layer
  - Automation & Workflow Layer
  - Predictive Analytics / AI Agent Layer
- Execution velocity + Margin Expansion

## 02

### Supply Cliff Inflection

- Peak supply behind us
- Net absorption positive Q1 2026
- Starts & completions dropping significantly
- NXRT fundamentals improving:
  - Occupancy 92.6% → 94.0% year-to-date improvement
  - New lease tradeouts +345 bps May'26 over Dec'25
  - Demand Funnel signaling strength in leasing season

## 03

### Capital Efficiency & Embedded Value

- 37-40% NAV discount
- Opportunity to harvest gains on well-seasoned assets, recycle capital into our value-add earnings initiatives
- Opportunity to diversify earnings and turn available capacity on balance sheet into a revenue center via DST lending platform
- Opportunity to transition from synthetic rate protection to environmental rate relief

## 03

# Market Fundamentals

*Peak supply behind us. Demand inflection underway.*

New starts at their lowest run-rate in a decade (Witten Advisors, 2026). Seven of ten NXRT markets outpacing national job growth (US Bureaus of Labor Statistics, 2026). A 20.3% rent-to-income ratio with \$436/mo of headroom to Class A average — positioning the portfolio for outsized rent capture as supply recedes.

## FUNDAMENTALS

# Demand Fundamentals

## 01

### Homeownership out of Reach

- 4.7M-unit housing shortage — deficit at all-time high (Zillow, 2025)
- 82% more income needed to buy vs. rent, up from 17% in 2021 (John Burns Real Estate Consulting, Q1 2026)
- Mortgage payments exceed rents by 38% across all 50 largest metros (Bankrate, 2025)
- Median first-time buyer age now 40 — an all-time high (Bankrate, 2025)

## 02

### 140M Millennials & Gen Z Are Choosing to Rent

- Gen Z: only U.S. generation currently adding renter households (Harvard JCHS, 2025)
- 74% of Gen Z households rent; expected to be largest renter group by 2030 (RentCafe, 2025)
- Millennial homeownership at 47% — well below prior generations at same age (Apartment List, 2025)
- 1.82M Millennial + Gen Z households still living with parents, delayed by costs (Realtor.com, 2026)

## 03

### Sunbelt Migration & Corporate Capital

- Sunbelt accounts for ~80% of U.S. population growth over the past decade (Bush Institute-SMU, 2025)
- 561 corporate HQ relocations tracked 2018–2024; DFW led with 100 (CBRE, 2025)
- 200+ companies moved to Texas since 2020; 55 Fortune 500 HQs — most of any state (Gov. Abbott's Office, 2025)
- 14 of top 15 domestic in-migration metros are in the Southeast (Bush Institute-SMU, 2025)

| Nashville         | 1,338 | 92.6%                | -7.73%                           | 93.0%                | -4.45%                                    | Improving |
| Atlanta           | 1,692 | 92.6%                | -5.82%                           | 94.6%                | -3.65%                                    | Watch     |
| Orlando           | 1,172 | 92.8%                | -9.82%                           | 94.7%                | -7.00%                                    | Improving |
| Tampa             | 576   | 92.9%                | -7.22%                           | 92.7%                | -0.59%                                    | Improving |
| South Florida     | 1,959 | 95.2%                | -5.52%                           | 95.6%                | -3.56%                                    | Strong    |
| Phoenix           | 2,009 | 95.1%                | -6.43%                           | 93.7%                | -3.60%                                    | Improving |
| Las Vegas         | 1,164 | 94.5%                | -1.51%                           | 93.3%                | -0.45%                                    | Improving |
| Raleigh           | 625   | 94.1%                | -3.83%                           | 96.0%                | 0.98%                                     | Strong    |

**Strong:** Raleigh (+0.98%) and South Florida (-3.56%) — positive or near-flat tradeouts with 95%+ occupancy.

**Improving:** DFW, Nashville, Orlando, Tampa, Phoenix and Las Vegas each posted ~200–600 bps of sequential tradeout improvement.

**Watch:** Charlotte (tradeouts widened to -8.58% despite 96.0% occupancy) and Atlanta (minimal sequential improvement, still < -5.0%).

## 04

# Company Outlook

*From trough to inflection — the path forward.*

NXRT is entering the acceleration phase of its strategy: sequential NOI improvement, AI-driven margin expansion, active capital recycling, and an emerging fee income platform — all converging against one of the widest NAV discounts in apartment REITs.

## GUIDANCE

# 2026 Full Year Guidance Summary

*NXRT's 2026 guidance ranges for earnings (loss) per diluted share, Core FFO per diluted share, Same Store rental income, Same Store total revenue, Same Store total expenses, Same Store NOI, and acquisitions and dispositions are as follows (dollars in millions, except per share amounts):*

| Metric                                           | Low-End  | Mid-Point | High-End |
|--------------------------------------------------|----------|-----------|----------|
| Earnings (loss) per diluted share <sup>(1)</sup> | \$(1.54) | \$(1.40)  | \$(1.26) |
| Core FFO per diluted share <sup>(1)(2)</sup>     | \$2.42   | \$2.57    | \$2.71   |
| <b>SAME STORE GROWTH <sup>(3)</sup></b>          |          |           |          |
| Rental Income                                    | 0.0%     | 0.9%      | 1.9%     |
| Total Revenue                                    | 0.1%     | 1.1%      | 2.0%     |
| Total Expenses                                   | 4.2%     | 3.5%      | 2.8%     |
| Same Store NOI <sup>(2)</sup>                    | -2.5%    | -0.5%     | 1.5%     |
| <b>OTHER CONSIDERATIONS <sup>(4)</sup></b>       |          |           |          |
| Acquisitions                                     | \$—      | \$100.0   | \$200.0  |
| Dispositions                                     | \$—      | \$100.0   | \$200.0  |

(1) Weighted average diluted share count estimate for full year 2026 is approximately 25.7 million.

(2) Same Store NOI and Core FFO are non-GAAP measures. For reconciliations of Full Year 2026 Same Store NOI and Core FFO guidance to net loss guidance, and a discussion of why we consider these non-GAAP measures useful, see the "Cautionary Statements" and "Non-GAAP Reconciliations" sections of this presentation.

(3) Year-over-year growth for the Full Year 2026 Same Store pool (35 properties).

(4) We continue to evaluate our Portfolio for capital recycling opportunities. Transaction volumes presented are incorporated into the earnings per share and Core FFO guidance above. Actual acquisitions and dispositions could vary significantly from our projections. We undertake no duty to update these assumptions, except as required by law.

Additional information on 2026 financial and earnings guidance is provided in the Company's 1Q 2026 Financial Supplement available at [nxrt.nexpoint.com](http://nxrt.nexpoint.com).

(1) Cap Rate Ranges are Management estimates based on independent third-party review of our properties.

(2) Estimated value ranges are presented for the existing portfolio (36 properties as of March 31, 2026).

(3) The Company anticipates net loss will be in the range between approximately \$39.7 million and \$32.5 million for the full year 2026 and between \$11.6 million and \$9.7 million for the second quarter of 2026. FY 2026 NOI Guidance considers a commensurate volume of capital recycling.

(4) Includes approximately \$7.4 million that is held for value-add upgrades; reduced by \$7.4 million for estimated 2026 rehab expenditures.

(5) Includes outstanding balance of March 31, 2026.

## CAPITAL STRATEGY

# Capital Allocation Framework

## 01

### Accretive Capital Recycling/Deployment

- Targeting ~\$100–200M of net acquisitions / dispositions over the next twelve months
- Sourcing investments within a 5.25%–5.75% cap rate range
- Optimizing after-tax outcomes through tax-efficient 1031 exchange strategies where applicable
- Pursuing ~\$25–75M of NexPoint private credit opportunities

## 02

### Stock Buybacks

- NXRT has consistently utilized share repurchases as a key lever to enhance shareholder value
- Since inception, the Company has repurchased \$94.6 million of stock, representing 3.2 million shares at a weighted average price of \$29.44 per share
- With the stock currently trading at an estimated 37–40% discount to NAV, management intends to continue evaluating share repurchases as part of its broader capital allocation strategy

## 03

### Deleveraging

- Prioritizing balance sheet deleveraging through the strategic use of disposition proceeds
- Targeting reduced leverage levels over the medium term
- Maintaining flexibility to balance deleveraging with opportunistic capital deployment

(1) As of March 31, 2026, total indebtedness was \$1.6 billion with an adjusted weighted average interest rate of 3.30%, \$1.6 billion of which was floating rate. Interest rate swaps effectively fix the rate on \$0.9 billion (60.8%) of the \$1.5 billion in floating rate mortgage debt. In calculating the adjusted weighted average rate, a 1.36% fixed rate (adjusted SOFR) is applied to the \$0.9 billion notional swap amount.

# Why Own NXRT

*The case for a re-rating.*

---

01

A purpose-built intelligence platform expected to deliver measurable savings — with an accretive predictive analytics roadmap.

---

02

Entering the most favorable supply-demand environment in five years.

---

03

One of the widest discounts in apartment REITs, with multiple expected near-term catalysts to close the gap.

---

04

Proven investment returns and internal growth opportunities. Acquisition strategy validated by recent Sedona performance.

---

05

Dividends covered by earnings with an improving trajectory.

(1) Interest rate is based on a reference rate plus an applicable margin, except for fixed rate mortgage debt. The reference rates used in our portfolio is 30-day SOFR. As of March 31, 2026, SOFR was 3.65%.

(2) The Company reflected a valuation adjustment on its fixed rate debt for Residences at West Place to adjust it to fair market value on its respective date of acquisition for the difference between the fair value and the assumed principal amount of debt. The difference is amortized into interest expense over the remaining terms of the mortgages.

## APPENDIX

# Interest Rate Swaps

As of March 31, 2026, the Company had the following outstanding interest rate swaps designated as cash flow hedges of interest rate risk (\$000s):

| Effective Date    | Termination Date  | Counterparty | Notional Amount   | Fixed Rate    |
|-------------------|-------------------|--------------|-------------------|---------------|
| September 1, 2019 | September 1, 2026 | KeyBank      | \$ 100,000        | 1.462%        |
| September 1, 2019 | September 1, 2026 | KeyBank      | 125,000           | 1.302%        |
| January 3, 2020   | September 1, 2026 | KeyBank      | 92,500            | 1.609%        |
| March 4, 2020     | June 1, 2026      | Truist       | 100,000           | 0.820%        |
| June 1, 2021      | September 1, 2026 | KeyBank      | 200,000           | 0.845%        |
| June 1, 2021      | September 1, 2026 | KeyBank      | 200,000           | 0.953%        |
| April 3, 2025     | April 1, 2030     | JPM          | 100,000           | 3.489%        |
| <b>Total</b>      |                   |              | <b>\$ 917,500</b> | <b>1.361%</b> |

The following table contains summary information regarding the Company's forward interest rate swap (\$000s):

| Effective Date    | Termination Date | Counterparty | Notional Amount | Fixed Rate |
|-------------------|------------------|--------------|-----------------|------------|
| September 1, 2026 | January 1, 2027  | KeyBank      | \$ 92,500       | 1.798%     |

(1) Floating rate option is SOFR + 0.11448% ("Adjusted SOFR") for all swaps other than the JPM swap, which is based on SOFR. As of March 31, 2026, Adjusted SOFR and SOFR were 3.77% and 3.65%, respectively. The forward swap floating rate option is Adjusted SOFR.

(2) Represents the weighted average fixed rate of the interest rate swaps.
