## Wintrust Financial Corporation Reports First Quarter 2022 Net Income of $\mathbf{\$ 1 2 7 . 4}$ million

ROSEMONT, ILLINOIS - Wintrust Financial Corporation ("Wintrust", "the Company", "we" or "our") (Nasdaq: WTFC) announced net income of $\$ 127.4$ million or $\$ 2.07$ per diluted common share for the first quarter of 2022 , an increase in diluted earnings per common share of $31 \%$ compared to the fourth quarter of 2021 .

## Highlights of the First Quarter of 2022:

Comparative information to the fourth quarter of 2021

- Total loans, excluding Paycheck Protection Program ("PPP") loans, increased by $\$ 796$ million, or $9 \%$ on an annualized basis.
- Core loans increased by $\$ 486$ million and niche loans increased by $\$ 310$ million.
- PPP loans declined by $\$ 304$ million in the first quarter of 2022 primarily as a result of processing forgiveness payments.
- Total assets increased by $\$ 109$ million totaling $\$ 50.3$ billion as of March 31, 2022.
- Total deposits increased by $\$ 124$ million.
- Net interest income increased by $\$ 3.3$ million as compared to the fourth quarter of 2021 as follows:
- Increased $\$ 16.7$ million primarily due to earning asset growth and improvement in net interest margin.
- Decreased by approximately $\$ 6.7$ million due to two fewer days in the first quarter of 2022.
- Decreased by $\$ 6.7$ million due to less PPP interest income.
- Net interest margin increased by six basis points primarily due to improved earning asset mix related to liquidity deployment and lower rates on interest bearing liabilities.
- Recorded $\$ 2.5$ million of net charge-offs or three basis points on an annualized basis in the first quarter of 2022 as compared to $\$ 6.2$ million of net charge-offs or seven basis points on an annualized basis in the fourth quarter of 2021.
- Recorded a provision for credit losses of $\$ 4.1$ million in the first quarter of 2022 as compared to a provision for credit losses of $\$ 9.3$ million in the fourth quarter of 2021.
- The allowance for credit losses on our core loan portfolio is approximately $1.31 \%$ of the outstanding balance as of March 31,2022 , down from $1.33 \%$ as of December 31, 2021. See Table 11 for more information.
- Non-performing loans decreased to $0.16 \%$ of total loans, as of March 31, 2022, down from $0.21 \%$ as of December 31, 2021.
- Mortgage banking revenue increased to $\$ 77.2$ million for the first quarter of 2022 as compared to $\$ 53.1$ million in the fourth quarter of 2021.
- The Company recorded a $\$ 43.4$ million increase in the value of mortgage servicing rights related to changes in fair value model assumptions as compared to a $\$ 6.7$ million increase recognized in the fourth quarter of 2021.
- Recorded net losses on investment securities of $\$ 2.8$ million in the first quarter of 2022 related to fair value changes in equity securities as compared to net losses of $\$ 1.1$ million in the fourth quarter of 2021.
- Tangible book value per common share (non-GAAP) decreased slightly to $\$ 59.34$ as of March 31,2022 as compared to $\$ 59.64$ as of December 31, 2021. The decline in tangible book value per common share was primarily driven by a decline in the market value of available-for-sale securities as of March 31, 2022, nearly offset by earnings in the quarter. See Table 17 for reconciliation of non-GAAP measures.

Edward J. Wehmer, Founder and Chief Executive Officer, commented, "Wintrust kicked off 2022 with an impressive first quarter reporting record quarterly pre-tax, pre-provision income highlighted by continued expansion of net interest income. Our diversified loan book exhibited strong growth while credit quality remains extraordinarily good. The Company's future prospects remain bright as we believe our asset sensitive interest rate position will allow us to capitalize on potentially rising interest rates. Wintrust reported net income of $\$ 127.4$ million for the first quarter of 2022, up from $\$ 98.8$ million in the fourth quarter of 2021. Additionally, pre-tax, pre-provision income (non-GAAP) was a record level of $\$ 177.8$ million in the first quarter of 2022 as compared to $\$ 146.3$ million in the fourth quarter of 2021."

Mr. Wehmer continued, "The Company experienced robust loan growth as loans, excluding PPP loans, increased by $\$ 796$ million or $9 \%$ on an annualized basis in the first quarter of 2022. We continue to pick up new market share and grow organically as all of our material loan portfolios exhibited strong growth in the first quarter of 2022. We are still experiencing low commercial line of credit utilization and feel confident that we can continue to grow loans given our robust loan pipelines and diversified loan portfolio. Our loans to deposits ratio ended the quarter at $83.6 \%$ and we believe that we have sufficient liquidity to meet customer loan demand."

Mr. Wehmer commented, "Net interest income increased by $\$ 3.3$ million in the first quarter of 2022 primarily due to earning asset growth and improvement in net interest margin. The expansion in net interest income is particularly impressive when considering there were two fewer days in the first quarter of 2022 as compared to the fourth quarter of 2021. Additionally, the Company's robust loan growth has continued to more than offset the declining contribution from PPP loans. During the quarter we also improved our net interest margin and increased our quarterly net interest income run rate by increasing our investment portfolio by $\$ 1.2$ billion."

Mr. Wehmer stated, "We have maintained our asset sensitive interest rate position which we expect to benefit us as short term interest rates rise. Based on modeled contractual cash flows, including prepayment assumptions, approximately $80 \%$ of our current loan balances are projected to reprice or mature in the next 12 months. Further, we project that, assuming an immediate and parallel 25 basis point rate hike, the cumulative increase to net interest income in the subsequent 12 months is approximately $\$ 40-\$ 50$ million. Such projections incorporate a number of assumptions and could differ materially depending on various factors including competition and the macroeconomic environment."

Mr. Wehmer noted, "We recorded mortgage banking revenue of $\$ 77.2$ million in the first quarter of 2022 as compared to $\$ 53.1$ million in the fourth quarter of 2021. Loan volumes originated for sale in the first quarter of 2022 were $\$ 896$ million, down from $\$ 1.3$ billion in the fourth quarter of 2021 . The Company recorded a $\$ 43.4$ million increase in the value of mortgage servicing rights related to changes in fair value model assumptions as compared to a $\$ 6.7$ million increase recognized in the fourth quarter of 2021. We are focused on expanding our market share of purchase originations and finding efficiencies in our delivery channels to reduce costs in light of the challenging interest rate environment. Based on current market conditions, we expect that mortgage originations in the second quarter of 2022 will remain relatively similar to the first quarter of 2022. ."

Commenting on credit quality, Mr. Wehmer stated, "I am impressed that we have yet again, reset our record low level of nonperforming loans at $0.16 \%$ of total loans, as of March 31, 2022. During the first quarter of 2022, we continued our practice of pursuing the resolution of non-performing credits and executed a loan sale that reduced non-performing loans by approximately $\$ 9$ million with associated net charge-offs of $\$ 413,000$. The first quarter of 2022 continued the trend of benign quarterly net charge-offs at $\$ 2.5$ million and the Company recorded a provision for credit losses of $\$ 4.1$ million. The allowance for credit losses on our core loan portfolio as of March 31, 2022 is approximately $1.31 \%$ of the outstanding balance. We believe that the Company's reserves remain appropriate and we remain diligent in our review of credit."

Mr. Wehmer concluded, "Our first quarter of 2022 results continued to demonstrate the multi-faceted nature of our business model which we believe uniquely positions us to be successful. We expect to leverage our differentiated, diversified loan portfolio to outperform peers with respect to loan growth which should allow us to continue to expand net interest income. We are focused on taking advantage of market opportunities to prudently deploy excess liquidity into earning assets including core and niche loans and investment securities while maintaining an interest rate sensitive asset portfolio. We are opportunistically evaluating the acquisition market which has been active for both banks and business lines of various sizes. Of course, we remain diligent in our consideration of acquisition targets and intend to be prudent in our decision-making, always seeking to minimize dilution."

The graphs below illustrate certain financial highlights of the first quarter of 2022 as well as historical financial performance. See "Supplemental Non-GAAP Financial Measures/Ratios" at Table 17 for additional information with respect to non-GAAP financial measures/ratios, including the reconciliations to the corresponding GAAP financial measures/ratios.

## SUMMARY OF RESULTS:

## BALANCE SHEET

Total loans, excluding PPP loans, increased by $\$ 796$ million as core loans increased by $\$ 486$ million and niche loans increased by $\$ 310$ million. See Table 1 for more information. As of March 31, 2022, virtually all of the PPP loan balances originated in 2020 were forgiven with only $\$ 40$ million remaining on balance sheet of which nearly all are in the forgiveness process. Whereas, as of March 31, 2022, approximately $84 \%$ of PPP loan balances originated in 2021 were forgiven, $8 \%$ are in the forgiveness review or submission process and $8 \%$ have yet to apply for forgiveness. Also, during the first quarter of 2022 a portion of excess liquidity was deployed, increasing investments by $\$ 1.2$ billion.

Total liabilities increased $\$ 115$ million in the first quarter of 2022 resulting primarily from a $\$ 124$ million increase in total deposits. The increase in deposits was primarily due to a $\$ 555$ million increase in interest-bearing deposits partially offset by a $\$ 431$ million decrease in non-interest-bearing deposits. The Company's loans to deposits ratio ended the quarter at $83.6 \%$. Management believes in substantially funding the Company's balance sheet with core deposits and utilizes brokered or wholesale funding sources on a limited basis to manage its liquidity position as well as for interest rate risk management purposes.

For more information regarding changes in the Company's balance sheet, see Consolidated Statements of Condition and Tables 1 through 3 in this report.

## NET INTEREST INCOME

For the first quarter of 2022, net interest income totaled $\$ 299.3$ million, an increase of $\$ 3.3$ million as compared to the fourth quarter of 2021. The $\$ 3.3$ million increase in net interest income in the first quarter of 2022 compared to the fourth quarter of 2021 was primarily due to earning asset growth and improvement in net interest margin. Additionally, the net interest income growth occurred despite two fewer days in the first quarter of 2022 compared to the fourth quarter of 2021 and a decline of $\$ 6.7$ million due to less PPP interest income. As of March 31, 2022, the Company had approximately $\$ 6.3$ million of net PPP loan fees that have yet to be recognized in income.

Net interest margin was $2.60 \%$ ( $2.61 \%$ on a fully taxable-equivalent basis, non-GAAP) during the first quarter of 2022 compared to $2.54 \%$ ( $2.55 \%$ on a fully taxable-equivalent basis, non-GAAP) during the fourth quarter of 2021. The net interest margin increase as compared to the fourth quarter of 2021 was due to a three basis point increase in yield on earning assets and a three basis point decrease in the rate paid on interest-bearing liabilities. The decrease in the rate paid on interest-bearing liabilities in the first quarter of 2022 as compared to the fourth quarter of 2021 is primarily due to a two basis point decrease in the rate paid on interest-bearing deposits primarily due to lower repricing of time deposits. The three basis point increase in the yield on earning assets in the first quarter of 2022 as compared to the fourth quarter of 2021 was primarily due to a shift in earning asset mix through liquidity deployment with increasing investment securities and decreasing levels of lower yielding liquidity management assets.

For more information regarding net interest income, see Tables 4 through 7 in this report.

## ASSET QUALITY

The allowance for credit losses totaled $\$ 301.3$ million as of March 31, 2022, an increase of $\$ 1.6$ million as compared to $\$ 299.7$ million as of December 31, 2021. A provision for credit losses totaling $\$ 4.1$ million was recorded for the first quarter of 2022 as compared to $\$ 9.3$ million recorded in the fourth quarter of 2021 . For more information regarding the provision for credit losses, see Table 10 in this report.

Management believes the allowance for credit losses is appropriate to account for expected credit losses. The Current Expected Credit Losses ("CECL") accounting standard requires the Company to estimate expected credit losses over the life of the Company's financial assets as of the reporting date. There can be no assurances, however, that future losses will not significantly exceed the amounts provided for, thereby affecting future results of operations. A summary of the allowance for credit losses calculated for the loan components in each portfolio as of March 31, 2022, December 31, 2021, and September 30, 2021 is shown on Table 11 of this report.

Net charge-offs totaled $\$ 2.5$ million in the first quarter of 2022, as compared to $\$ 6.2$ million of net charge-offs in the fourth quarter of 2021. Net charge-offs as a percentage of average total loans were reported as three basis points in the first quarter of

2022 on an annualized basis compared to seven basis points on an annualized basis in the fourth quarter of 2021. For more information regarding net charge-offs, see Table 9 in this report.

The Company's delinquency rates remain low and manageable. For more information regarding past due loans, see Table 12 in this report.

The ratio of non-performing assets to total assets was $0.13 \%$ as of March 31, 2022, compared to $0.16 \%$ at December 31, 2021. Non-performing assets totaled $\$ 63.5$ million at March 31 , 2022, compared to $\$ 78.7$ million at December 31, 2021. Nonperforming loans totaled $\$ 57.3$ million, or $0.16 \%$ of total loans, at March 31, 2022 compared to $\$ 74.4$ million, or $0.21 \%$ of total loans, at December 31, 2021. Other real estate owned ("OREO") totaled $\$ 6.2$ million at March 31, 2022, an increase of $\$ 1.9$ million compared to $\$ 4.3$ million at December 31, 2021. Management is pursuing the resolution of all non-performing assets. At this time, management believes OREO is appropriately valued at the lower of carrying value or fair value less estimated costs to sell. For more information regarding non-performing assets, see Table 13 in this report.

## NON-INTEREST INCOME

Wealth management revenue decreased by $\$ 1.1$ million during the first quarter of 2022 as compared to the fourth quarter of 2021 primarily related to unfavorable equity market performance. Wealth management revenue is comprised of the trust and asset management revenue of The Chicago Trust Company and Great Lakes Advisors, the brokerage commissions, managed money fees and insurance product commissions at Wintrust Investments and fees from tax-deferred like-kind exchange services provided by the Chicago Deferred Exchange Company.

Mortgage banking revenue increased by $\$ 24.1$ million in the first quarter of 2022 as compared to the fourth quarter of 2021, primarily due to a $\$ 43.4$ million favorable mortgage servicing rights portfolio fair value adjustment as compared to a $\$ 6.7$ million favorable adjustment recognized in the fourth quarter of 2021. This increase was partially offset by a $\$ 13.6$ million decline in production revenue. Loans originated for sale were $\$ 896$ million in the first quarter of 2022, a decrease of $\$ 403$ million as compared to the fourth quarter of 2021. The percentage of origination volume from refinancing activities was $47 \%$ in the first quarter of 2022 as compared to $48 \%$ in the fourth quarter of 2021 . Mortgage banking revenue includes revenue from activities related to originating, selling and servicing residential real estate loans for the secondary market.

During the first quarter of 2022, the fair value of the mortgage servicing rights portfolio increased primarily due to the fair value adjustment increase of $\$ 43.4$ million and capitalization of $\$ 14.4$ million. These increases were partially offset by a reduction in value of $\$ 6.0$ million due to payoffs and paydowns of the existing portfolio.

The Company recorded $\$ 3.7$ million of fees from covered call options in the first quarter of 2022 as compared to $\$ 1.1$ million in the fourth quarter of 2021. The Company has typically written call options with terms of less than three months against certain U.S. Treasury and agency securities held in its portfolio for liquidity and other purposes. Management has entered into these transactions with the goal of economically hedging security positions and enhancing its overall return on its investment portfolio by using fees generated from these options to compensate for net interest margin compression. These option transactions are designed to mitigate overall interest rate risk and do not qualify as hedges pursuant to accounting guidance.

Trading gains totaled $\$ 3.9$ million in the first quarter of 2022 as compared to a gain of $\$ 206,000$ recognized in the fourth quarter of 2021. Trading gains in the first quarter of 2022 relate primarily to a favorable market value adjustment on an interest rate cap derivative held as an economic hedge for potentially rising interest rates.

The Company recognized net losses on investment securities of $\$ 2.8$ million in the first quarter of 2022 as compared to net losses of $\$ 1.1$ million recognized in the fourth quarter of 2021.

Net operating lease income totaled $\$ 15.5$ million in the first quarter of 2022 as compared to $\$ 14.2$ million in the fourth quarter of 2021. The $\$ 1.3$ million increase in the first quarter of 2022 is primarily attributable to increased gains on sale of lease assets as compared to the fourth quarter of 2021.

For more information regarding non-interest income, see Tables 14 and 15 in this report.

## NON-INTEREST EXPENSE

Salaries and employee benefits expense increased by $\$ 5.2$ million in the first quarter of 2022 as compared to the fourth quarter of 2021. The $\$ 5.2$ million increase is primarily related to increased salary and incentive compensation expense, partially offset by lower commissions expense due to declining mortgage production.

Software and equipment expense totaled $\$ 22.8$ million in the first quarter of 2022 , a decrease of $\$ 898,000$ as compared to the fourth quarter of 2021. The decrease is primarily due to accelerated depreciation recognized in the fourth quarter of 2021 related to the reduction in the useful life of a software asset that is planned to be replaced as we continue to make upgrades to our digital customer experience.

Advertising and marketing expenses in the first quarter of 2022 decreased by $\$ 2.1$ million as compared to the fourth quarter of 2021 primarily related to lower media advertising costs. Marketing costs are incurred to promote the Company's brand, commercial banking capabilities, the Company's various products, to attract loans and deposits and to announce new branch openings as well as the expansion of the Company's non-bank businesses. The level of marketing expenditures depends on the timing of sponsorship programs utilized which are determined based on the market area, targeted audience, competition and various other factors.

The Company recorded a net OREO gain of $\$ 1.0$ million in the first quarter of 2022 as compared to a net gain of $\$ 641,000$ in the fourth quarter of 2021. The net gains are primarily attributable to the sale of OREO properties during the fourth quarter of 2021 and first quarter of 2022.

Miscellaneous expense in the first quarter of 2022 decreased by $\$ 1.2$ million as compared to the fourth quarter of 2021. Miscellaneous expense includes ATM expenses, correspondent bank charges, directors fees, telephone, travel and entertainment, corporate insurance, dues and subscriptions, problem loan expenses and lending origination costs that are not deferred.

For more information regarding non-interest expense, see Table 16 in this report.

## INCOME TAXES

The Company recorded income tax expense of $\$ 46.3$ million in the first quarter of 2022 compared to $\$ 38.3$ million in the fourth quarter of 2021. The effective tax rates were $26.65 \%$ in the first quarter of 2022 compared to $27.94 \%$ in the fourth quarter of 2021. The effective tax rates were partially impacted by the tax effects related to share-based compensation which fluctuate based on the Company's stock price and timing of employee stock option exercises and vesting of other share-based awards. The Company recorded excess tax benefits of $\$ 2.2$ million in the first quarter of 2022, compared to excess tax benefits of $\$ 866,000$ in the fourth quarter of 2021 related to share-based compensation.

## BUSINESS UNIT SUMMARY

## Community Banking

Through its community banking unit, the Company provides banking and financial services primarily to individuals, small to mid-sized businesses, local governmental units and institutional clients residing primarily in the local areas the Company services. In the first quarter of 2022, this unit expanded its loan portfolio. The segment's net interest income increased in the first quarter of 2022 as compared to the fourth quarter of 2021 due to growth in earning assets and an increased net interest margin.

Mortgage banking revenue was $\$ 77.2$ million for the first quarter of 2022 , an increase of $\$ 24.1$ million as compared to the fourth quarter of 2021. Service charges on deposit accounts totaled $\$ 15.3$ million in the first quarter of 2022, an increase of $\$ 549,000$ as compared to the fourth quarter of 2021 primarily due to higher fees associated with commercial account activity. The Company's gross commercial and commercial real estate loan pipelines remained robust as of March 31, 2022 indicating momentum for continued loan growth in the second quarter of 2022.

## Specialty Finance

Through its specialty finance unit, the Company offers financing of insurance premiums for businesses and individuals, equipment financing through structured loans and lease products to customers in a variety of industries, accounts receivable financing and value-added, out-sourced administrative services and other services. Originations within the insurance premium financing receivables portfolio were $\$ 3.4$ billion during the first quarter of 2022 and average balances increased by $\$ 551.4$ million as compared to the fourth quarter of 2021. The Company's leasing portfolio balance was unchanged in the first quarter of 2022, with its portfolio of assets, including capital leases, loans and equipment on operating leases, totaling $\$ 2.4$ billion as of March 31, 2022 and December 31, 2021. Revenues from the Company's out-sourced administrative services business were $\$ 1.9$ million in the first quarter of 2022, effectively unchanged from the fourth quarter of 2021.

## Wealth Management

Through four separate subsidiaries within its wealth management unit, the Company offers a full range of wealth management services, including trust and investment services, tax-deferred like-kind exchange services, asset management, securities brokerage services and $401(\mathrm{k})$ and retirement plan services. Wealth management revenue totaled $\$ 31.4$ million in the first quarter of 2022, a decrease of $\$ 1.1$ million compared to the fourth quarter of 2021 . Decreases in wealth management revenue were primarily due to unfavorable equity market performance during the first quarter of 2022. At March 31, 2022, the Company's wealth management subsidiaries had approximately $\$ 35.8$ billion of assets under administration, which included $\$ 6.7$ billion of assets owned by the Company and its subsidiary banks, representing a $\$ 274$ million increase from the $\$ 35.5$ billion of assets under administration at December 31, 2021.

## ITEMS IMPACTING COMPARATIVE FINANCIAL RESULTS

## Insurance Agency Loan Portfolio

On November 15, 2021, the Company completed its acquisition of certain assets from The Allstate Corporation ("Allstate"). Through this business combination, the Company acquired approximately $\$ 581.6$ million of loans, net of allowance for credit losses measured on the acquisition date. The loan portfolio was comprised of approximately 1,800 loans to Allstate agents nationally. In addition to acquiring the loans, the Company became the national preferred provider of loans to Allstate agents. In connection with the loan acquisition, a team of Allstate agency lending specialists joined the Company, to augment and expand Wintrust's existing insurance agency finance business. As the transaction was determined to be a business combination, the Company recorded goodwill of approximately $\$ 9.3$ million on the purchase.

(1) Period-end balance sheet percentage changes are annualized.
(2) See "Supplemental Non-GAAP Financial Measures/Ratios" at Table 17 for additional information on this performance measure/ratio.
(3) Net revenue is net interest income plus non-interest income.
(4) The net overhead ratio is calculated by netting total non-interest expense and total non-interest income, annualizing this amount, and dividing by that period's average total assets. A lower ratio indicates a higher degree of efficiency.
(5) Excludes mortgage loans held-for-sale.

Certain returns, yields, performance ratios, or quarterly growth rates are "annualized" in this presentation to represent an annual time period. This is done for analytical purposes to better discern, for decision-making purposes, underlying performance trends when compared to full-year or year-over-year amounts. For example, a $5 \%$ growth rate for a quarter would represent an annualized $20 \%$ growth rate. Additional supplemental financial information showing quarterly trends can be found on the Company's website at www.wintrust.com by choosing "Financial Reports" under the "Investor Relations" heading, and then choosing "Financial Highlights."

(1) Excludes mortgage loans held-for-sale.
(2) Net revenue is net interest income and non-interest income.
(3) See "Supplemental Non-GAAP Financial Measures/Ratios" at Table 17 for additional information on this performance measure/ratio.
(4) The net overhead ratio is calculated by netting total non-interest expense and total non-interest income, annualizing this amount, and dividing by that period's average total assets. A lower ratio indicates a higher degree of efficiency.
(5) Capital ratios for current quarter-end are estimated.
(6) The allowance for credit losses includes the allowance for loan losses, the allowance for unfunded lending-related commitments and the allowance for held-to-maturity securities losses.

(3) As a result of a review of the composition of borrowers within the mixed use and other loan portfolio, the Company identified certain loans that would be more precisely classified within a separate class of non-construction commercial real estate. This change in classification was based on related collateral and source of repayment of the underlying loan. Balances within such categories were also updated as of September 30, 2021 and June 30, 2021 in the table above for comparison purposes.

(1) Includes interest-bearing deposits from banks and securities purchased under resale agreements with original maturities of greater than three months. Cash equivalents include federal funds sold and securities purchased under resale agreements with original maturities of three months or less.
(2) Investment securities includes investment securities classified as available-for-sale and held-to-maturity, and equity securities with readily determinable fair values. Equity securities without readily determinable fair values are included within other assets.
(3) See "Supplemental Non-GAAP Financial Measures/Ratios" at Table 17 for additional information on this performance measure/ratio.
(4) Other earning assets include brokerage customer receivables and trading account securities.
(5) Loans, net of unearned income, include non-accrual loans.
(6) Net free funds are the difference between total average earning assets and total average interest-bearing liabilities. The estimated contribution to net interest margin from net free funds is calculated using the rate paid for total interest-bearing liabilities.

(1) Interest rate spread is the difference between the yield earned on earning assets and the rate paid on interest-bearing liabilities.
(2) See "Supplemental Non-GAAP Financial Measures/Ratios" at Table 17 for additional information on this performance measure/ratio.
(3) Net free funds are the difference between total average earning assets and total average interest-bearing liabilities. The estimated contribution to net interest margin from net free funds is calculated using the rate paid for total interest-bearing liabilities.

## TABLE 7: INTEREST RATE SENSITIVITY

As an ongoing part of its financial strategy, the Company attempts to manage the impact of fluctuations in market interest rates on net interest income. Management measures its exposure to changes in interest rates by modeling many different interest rate scenarios.

The following interest rate scenarios display the percentage change in net interest income over a one-year time horizon assuming increases of 100 and 200 basis points and a decrease of 100 basis points. The Static Shock Scenario results incorporate actual cash flows and repricing characteristics for balance sheet instruments following an instantaneous, parallel change in market rates based upon a static (i.e. no growth or constant) balance sheet. Conversely, the Ramp Scenario results incorporate management's projections of future volume and pricing of each of the product lines following a gradual, parallel change in market rates over twelve months. Actual results may differ from these simulated results due to timing, magnitude, and frequency of interest rate changes as well as changes in market conditions and management strategies. The interest rate sensitivity for both the Static Shock and Ramp Scenario is as follows:

| Static Shock Scenario | $+200$ Basis <br> Points | +100 Basis Point | -100 <br> Basis <br> Point |

As noted in the table on the previous page, the majority of the Company's portfolio is tied to LIBOR indices which, as shown in the table above, do not mirror the same changes as the Prime rate which has historically moved when the Federal Reserve raises or lowers interest rates. Specifically, the Company has $\$ 7.9$ billion of variable rate loans tied to one-month LIBOR and $\$ 6.8$ billion of variable rate loans tied to twelve-month LIBOR. The above chart shows:

(1) The initial allowance for credit losses on purchased credit deteriorated ("PCD") loans acquired during the period measured approximately $\$ 2.8$ million, of which approximately $\$ 2.3$ million was charged-off related to PCD loans that met the Company's charge-off policy at the time of acquisition. After considering these loans that were immediately charged-off, the net impact of PCD allowance for credit losses at the acquisition date was approximately $\$ 470,000$.

## TABLE 17: SUPPLEMENTAL NON-GAAP FINANCIAL MEASURES/RATIOS

The accounting and reporting policies of Wintrust conform to generally accepted accounting principles ("GAAP") in the United States and prevailing practices in the banking industry. However, certain non-GAAP performance measures and ratios are used by management to evaluate and measure the Company's performance. These include taxable-equivalent net interest income (including its individual components), taxable-equivalent net interest margin (including its individual components), the taxableequivalent efficiency ratio, tangible common equity ratio, tangible book value per common share, return on average tangible common equity, and pre-tax income, excluding provision for credit losses. Management believes that these measures and ratios provide users of the Company's financial information a more meaningful view of the performance of the Company's interestearning assets and interest-bearing liabilities and of the Company's operating efficiency. Other financial holding companies may define or calculate these measures and ratios differently.

Management reviews yields on certain asset categories and the net interest margin of the Company and its banking subsidiaries on a fully taxable-equivalent basis. In this non-GAAP presentation, net interest income is adjusted to reflect tax-exempt interest income on an equivalent before-tax basis using tax rates effective as of the end of the period. This measure ensures comparability of net interest income arising from both taxable and tax-exempt sources. Net interest income on a fully taxableequivalent basis is also used in the calculation of the Company's efficiency ratio. The efficiency ratio, which is calculated by dividing non-interest expense by total taxable-equivalent net revenue (less securities gains or losses), measures how much it costs to produce one dollar of revenue. Securities gains or losses are excluded from this calculation to better match revenue from daily operations to operational expenses. Management considers the tangible common equity ratio and tangible book value per common share as useful measurements of the Company's equity. The Company references the return on average tangible common equity as a measurement of profitability. Management considers pre-tax income, excluding provision for credit losses, as a useful measurement of the Company's core net income.

## FORWARD-LOOKING STATEMENTS

This document contains forward-looking statements within the meaning of federal securities laws. Forward-looking information can be identified through the use of words such as "intend," "plan," "project," "expect," "anticipate," "believe," "estimate," "contemplate," "possible," "will," "may," "should," "would" and "could." Forward-looking statements and information are not historical facts, are premised on many factors and assumptions, and represent only management's expectations, estimates and projections regarding future events. Similarly, these statements are not guarantees of future performance and involve certain risks and uncertainties that are difficult to predict, such as the impacts of the COVID-19 pandemic (including the emergence of variant strains), and which may include, but are not limited to, those listed below and the Risk Factors discussed under Item 1A of the Company's 2021 Annual Report on Form 10-K and in any of the Company's subsequent SEC filings. The Company intends such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, and is including this statement for purposes of invoking these safe harbor provisions. Such forward-looking statements may be deemed to include, among other things, statements relating to the Company's future financial performance, the performance of its loan portfolio, the expected amount of future credit reserves and charge-offs, delinquency trends, growth plans, regulatory developments, securities that the Company may offer from time to time, and management's long-term performance goals, as well as statements relating to the anticipated effects on financial condition and results of operations from expected developments or events, the Company's business and growth strategies, including future acquisitions of banks, specialty finance or wealth management businesses, internal growth and plans to form
additional de novo banks or branch offices. Actual results could differ materially from those addressed in the forward-looking statements as a result of numerous factors, including the following:

- the severity, magnitude and duration of the COVID-19 pandemic, including the emergence of variant strains, and the direct and indirect impact of such pandemic, as well as responses to the pandemic by the government, businesses and consumers, on our operations and personnel, commercial activity and demand across our business and our customers' businesses;
- the disruption of global, national, state and local economies associated with the COVID-19 pandemic, which could affect the Company's liquidity and capital positions, impair the ability of our borrowers to repay outstanding loans, impair collateral values and further increase our allowance for credit losses;
- the impact of the COVID-19 pandemic on our financial results, including possible lost revenue and increased expenses (including the cost of capital), as well as possible goodwill impairment charges;
- economic conditions that affect the economy, housing prices, the job market and other factors that may adversely affect the Company's liquidity and the performance of its loan portfolios, particularly in the markets in which it operates;
- negative effects suffered by us or our customers resulting from changes in U.S. trade policies;
- the extent of defaults and losses on the Company's loan portfolio, which may require further increases in its allowance for credit losses;
- estimates of fair value of certain of the Company's assets and liabilities, which could change in value significantly from period to period;
- the financial success and economic viability of the borrowers of our commercial loans;
- commercial real estate market conditions in the Chicago metropolitan area and southern Wisconsin;
- the extent of commercial and consumer delinquencies and declines in real estate values, which may require further increases in the Company's allowance for credit losses;
- inaccurate assumptions in our analytical and forecasting models used to manage our loan portfolio;
- changes in the level and volatility of interest rates, the capital markets and other market indices (including developments and volatility arising from or related to the COVID-19 pandemic) that may affect, among other things, the Company's liquidity and the value of its assets and liabilities;
- the interest rate environment, including a prolonged period of low interest rates or rising interest rates, either broadly or for some types of instruments, which may affect the Company's net interest income and net interest margin, and which could materially adversely affect the Company's profitability;
- competitive pressures in the financial services business which may affect the pricing of the Company's loan and deposit products as well as its services (including wealth management services), which may result in loss of market share and reduced income from deposits, loans, advisory fees and income from other products;
- failure to identify and complete favorable acquisitions in the future or unexpected difficulties or developments related to the integration of the Company's recent or future acquisitions;
- unexpected difficulties and losses related to FDIC-assisted acquisitions;
- harm to the Company's reputation;
- any negative perception of the Company's financial strength;
- ability of the Company to raise additional capital on acceptable terms when needed;
- disruption in capital markets, which may lower fair values for the Company's investment portfolio;
- ability of the Company to use technology to provide products and services that will satisfy customer demands and create efficiencies in operations and to manage risks associated therewith;
- failure or breaches of our security systems or infrastructure, or those of third parties;
- security breaches, including denial of service attacks, hacking, social engineering attacks, malware intrusion or data corruption attempts and identity theft;
- adverse effects on our information technology systems resulting from failures, human error or cyberattacks (including ransomware);
- adverse effects of failures by our vendors to provide agreed upon services in the manner and at the cost agreed, particularly our information technology vendors;
- increased costs as a result of protecting our customers from the impact of stolen debit card information;
- accuracy and completeness of information the Company receives about customers and counterparties to make credit decisions;
- ability of the Company to attract and retain senior management experienced in the banking and financial services industries;
- environmental liability risk associated with lending activities;
- the impact of any claims or legal actions to which the Company is subject, including any effect on our reputation;
- losses incurred in connection with repurchases and indemnification payments related to mortgages and increases in reserves associated therewith;
- the loss of customers as a result of technological changes allowing consumers to complete their financial transactions
without the use of a bank;
- the soundness of other financial institutions;
- the expenses and delayed returns inherent in opening new branches and de novo banks;
- liabilities, potential customer loss or reputational harm related to closings of existing branches;
- examinations and challenges by tax authorities, and any unanticipated impact of the Tax Act;
- changes in accounting standards, rules and interpretations, and the impact on the Company's financial statements;
- the ability of the Company to receive dividends from its subsidiaries;
- uncertainty about the discontinued use of LIBOR and transition to an alternative rate;
- a decrease in the Company's capital ratios, including as a result of declines in the value of its loan portfolios, or otherwise;
- legislative or regulatory changes, particularly changes in regulation of financial services companies and/or the products and services offered by financial services companies, including those changes that are in response to the COVID-19 pandemic, including without limitation the Coronavirus Aid, Relief, and Economic Security Act, the Economic Aid to Hard-Hit Small Businesses, Nonprofits and Venues Act, and the rules and regulations that may be promulgated thereunder;
- a lowering of our credit rating;
- changes in U.S. monetary policy and changes to the Federal Reserve's balance sheet, including changes in response to the COVID-19 pandemic, persistent inflation or otherwise;
- regulatory restrictions upon our ability to market our products to consumers and limitations on our ability to profitably operate our mortgage business;
- increased costs of compliance, heightened regulatory capital requirements and other risks associated with changes in regulation and the regulatory environment;
- the impact of heightened capital requirements;
- increases in the Company's FDIC insurance premiums, or the collection of special assessments by the FDIC;
- delinquencies or fraud with respect to the Company's premium finance business;
- credit downgrades among commercial and life insurance providers that could negatively affect the value of collateral securing the Company's premium finance loans;
- the Company's ability to comply with covenants under its credit facility;
- fluctuations in the stock market, which may have an adverse impact on the Company's wealth management business and brokerage operation; and
- widespread outages of operational, communication, or other systems, whether internal or provided by third parties, natural or other disasters (including acts of terrorism, armed hostilities and pandemics), and the effects of climate change could have an adverse effect on the Company's financial condition and results of operations, lead to material disruption of the Company's operations or the ability or willingness of clients to access the Company's products and services.

Therefore, there can be no assurances that future actual results will correspond to these forward-looking statements. The reader is cautioned not to place undue reliance on any forward-looking statement made by the Company. Any such statement speaks only as of the date the statement was made or as of such date that may be referenced within the statement. The Company undertakes no obligation to update any forward-looking statement to reflect the impact of circumstances or events after the date of the press release. Persons are advised, however, to consult further disclosures management makes on related subjects in its reports filed with the Securities and Exchange Commission and in its press releases.
