About the Company

Stock Yards Bancorp, Inc., with \$6.2 billion in assets, is the bank holding company for Stock Yards Bank & Trust Company. Established in 1904 in Louisville, Kentucky, Stock Yards Bank now has 63 offices in the Louisville, central, eastern, and northern Kentucky markets, as well as the Indianapolis and Cincinnati metropolitan markets.

In addition to its banking operations, Stock Yards Bancorp's Wealth Management and Trust Group has \$4.5 billion in assets under management. It ranks among the country's top 150 trust companies in terms of revenue.

Kentucky Bancshares Acquisition – On May 31, 2021, Stock Yards Bancorp completed the acquisition of Kentucky Bancshares, adding \$1.3 billion in assets, \$742 million in loans, and \$1.0 billion in deposits to the Company. The strategic combination included entry into the attractive central and eastern Kentucky markets, including the Lexington MSA, Kentucky's second largest market.

Key Investment Points

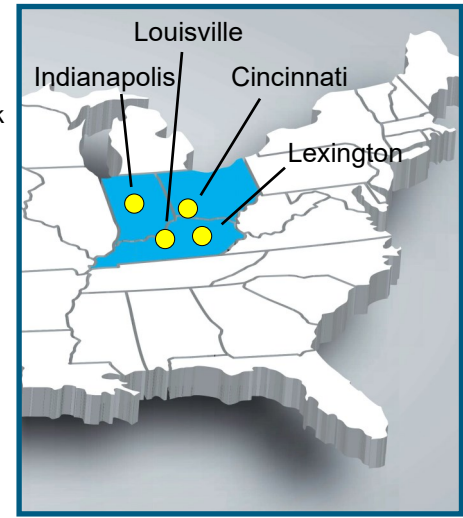

Consistent Earnings – Stock Yards Bancorp has grown earnings per share for 28 of the last 32 years—a trend interrupted only in 2008 and 2009 by the Great Recession, in 2017, by the impact of tax reform, and in 2020, by the COVID-19 pandemic. Net income for the first nine months of 2021 was \$50.1 million, or \$2.03 per diluted share, compared with net income of \$41.1 million, or \$1.81 per diluted share for the first nine months of 2020.

Industry-Leading Performance – Stock Yards Bancorp has established a record for consistent earnings growth based on a belief that performance is best measured over a period of time that takes into account both up- and down-market cycles. Stock Yards Bancorp consistently ranks among the strongest, fastest-growing community banks in the country. For the 10-year period ended 2020, the Company's total shareholder return was 229% versus 125% for the commonly used NASDAQ bank index. The Company's exceptional performance has been frequently cited by industry analysts at Keefe, Bruyette & Woods (KBW) and Raymond James Financial. In March, Stock Yards Bancorp was one of 30 financial institutions recognized in the inaugural Hovde High Performer List based on its prior year results. In December, the Company was recognized by Bank Director for its track record of successfully managing the Bank through economic cycles based on its total shareholder return over the 20-year period ended June 30, 2020, ranking #12 on the list of nationally recognized financial institutions.

Capital Management – With its balance sheet strength, Stock Yards Bancorp has continued to pursue capital strategies to enhance stockholder value, including a substantial and sustained dividend payout ratio. These efforts reflect 16 dividend increases since 2012, resulting in a cumulative increase of 93%. The Company also opportunistically pursues strategic fill-in or adjacent-market acquisitions from time to time to augment organic growth and its capital allocation strategies.

Strong, Profitable Fee Income – Stock Yards Bank has several platforms for generating attractive non-interest income that together accounted for approximately \$47.2 million or 27% of total revenue in the first nine months of 2021. Wealth management and trust provides the most significant source of fee income, contributing 43% of total non-interest income for the first nine months of 2021 and provides Stock Yards Bank with a meaningful competitive advantage and greater differentiation within the community banking arena.

Attractive Market Positions – Stock Yards Bank has become one of the largest community banks in the Louisville metropolitan area by capitalizing on its century-old reputation for superior, locally based service and a broad range of products. It is well positioned as an alternative to the super-regional and national banks that dominate the market and continues to expand its presence in the Louisville, central, eastern, and northern Kentucky, Indianapolis and Cincinnati markets. Over the past 12 months, organic loan growth in loans totaled \$254 million, or 9%, with \$28 million of the growth attributed to the new Central Kentucky market.
