Fisker and Wallbox are partnering to offer Fisker EV owners Wallbox home EV

chargers for purchase through the Fisker website in the U.S., Canada, and European launch markets. The Pulsar Plus, Wallbox's best-selling charger worldwide and one of the smallest smart universal EV chargers, will be available to the North American market through Fisker.

In Europe, Fisker will be the first OEM to offer Wallbox's Pulsar Max charger, providing localized charging solutions to drivers in seven European countries. Like Pulsar Plus, Pulsar Max delivers top charging speeds and offers the full Wallbox energy management suite, including solar charging, so users can enjoy their EVs to the fullest.

Both chargers display customized Fisker and Wallbox logos and can be installed in homes, offices, and multi-unit dwellings to provide straightforward and efficient charging.

"Fisker is laser-focused on giving our customers simple and intuitive technology combined with clever design to make owning an EV easier. Together with Wallbox, we are providing class-leading, competitively priced chargers for Fisker owners," Chairman and CEO Henrik Fisker said. "Wallbox's track record of delivering well-designed, innovative, and dependable charging systems on a global scale makes the partnership a perfect fit for our customers and our business."

"Making home charging accessible is key to accelerating the transition to EVs globally, and partnering with Fisker will allow us to support more drivers as they make the transition," said Douglas Alfaro, General Manager of Wallbox North America. "There is a natural alignment between our two brands, so we are excited to announce our partnership with Fisker."

Fisker and Wallbox also plan to offer home installation services provided by Wallbox in Europe. In the U.S. and Canada, installation services will be provided by COIL, a recent Wallbox acquisition.

Wallbox Pulsar Plus smart chargers will be available to Fisker Ocean reservation holders starting November 2022 in the U.S. and Canada. Wallbox Pulsar Max smart chargers will be available to Fisker Ocean reservation holders starting November 2022 in our European launch markets: Austria, Denmark, France, Germany, Norway, Sweden, and The United Kingdom. Pricing to be announced.

The Fisker Ocean, Fisker's ground-breaking all-electric SUV, is available in three trim levels: Extreme, Ultra, and Sport. The top trim Fisker Ocean Extreme travels 350 miles¹ on a single charge, with dual-motor, all-wheel-drive, three driving modes, Revolve 17.1" rotating screen, SolarSky roof, California Mode, Smart Traction, and many first-to-market safety features, including the world's first digital radar, all for \$68,999² in the U.S.

Production of the Fisker Ocean is on track for November 17, 2022, at a carbon-neutral factory in Graz, Austria. Deliveries to customers will begin shortly after.

About Fisker Inc.

Fisker Forward-Looking Statements

This press release includes forward-looking statements, which are subject to the "safe harbor" provisions of the U.S. Private Securities Litigation Reform Act of 1995. These statements may be identified by words such as "feel," "believes," "expects," "estimates," "projects," "intends," "should," "is to be," or the negative of such terms, or other comparable terminology and include, among other things, the quotation of our CEO, the timing of the availability of smart chargers, the statements regarding the planned launch timing and delivery, pricing and estimated range of the Fisker Ocean, the Company's future performance, and other future events that involve risks and uncertainties. Such forward-looking statements are not guarantees of future performance and are subject to risks and uncertainties, which could cause actual results to differ materially from the forward-looking statements contained herein due to many factors, including, but not limited to: Fisker's limited operating history; Fisker's ability to enter into additional manufacturing and other contracts with Magna or tier-one suppliers in order to execute on its business plan; the risk that OEM and supply partners do not meet agreed-upon timelines or experience capacity constraints; Fisker may experience significant delays in the design, manufacture, regulatory approval, launch and financing of its vehicles; Fisker's ability to execute its business model, including market acceptance of its planned products and services; Fisker's inability to retain key personnel and to hire additional personnel; competition in the electric vehicle market; Fisker's inability to develop a sales distribution network; and the ability to protect its intellectual property rights; and those factors discussed in Fisker's Annual Report on Form 10-K, under the heading "Risk Factors", filed with the Securities and Exchange Commission (the "SEC"), as supplemented by Quarterly Reports on Form 10-Q, and other reports and documents Fisker files from time to time with the SEC. Any forward-looking statements speak only as of the date on which they are made, and Fisker undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date of this press release.

1 Based on Fisker simulations. Actual results vary with conditions such as external environment and vehicle use. Official EPA and WLTP ratings are forthcoming.

2 Pricing shown is for the continental U.S. and excludes delivery, finance, and government charges. Maintenance is not included. Pricing depends upon specifications and options chosen by customers as they configure the actual vehicle closer to production. Pricing does not include various state and federal incentives and benefits which may be available.
