Cautionary Statement Regarding Forward-Looking Information

This presentation contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Words such as "believes," "anticipates," "plans," "may," "intends," "will," "should," "expects," and similar expressions are intended to identify forward-looking statements. Forward-looking statements include, but are not limited to, comments about Kohl's future financial plans, capital generation, management and deployment strategies, adequacy of capital resources and the competitive environment. Such statements are subject to certain risks and uncertainties, which could cause Kohl's actual results to differ materially from those anticipated by the forward looking statements. These risks and uncertainties include, but are not limited to, those described in Item 1A in Kohl’s Annual Report on Form 10-K, which is expressly incorporated herein by reference, and other factors as may periodically be described in Kohl's filings with the SEC. Any number of risks and uncertainties could cause actual results to differ materially from those Kohl's expresses in its forward-looking statements, including the short and long-term impact of COVID-19 on the economy and the pace of recovery thereafter. Forward-looking statements speak as of the date they are made, and Kohl's undertakes no obligation to update them.
