Q3 2022 Results
Performance during the third quarter was relatively in line with our expectations, as the organization managed the business effectively in a challenging macroeconomic environment.

High inflation continues to dampen consumer spending and our business, especially in the discretionary categories we offer. Our middle-income customers continued to purchase fewer items per trip and trade down to value-oriented private brands.

Sephora, a key element of our strategy, delivered strong beauty sales growth. We continue to see mid-to-high single digit percent sales lifts in stores with Sephora relative to the balance of the chain.

Subsequent to the end of the quarter, completed $500M accelerated share repurchase program. In total, received 17.9M shares, consisting of 11.8M shares in Q3 and the remaining 6.1M shares in Q4.

Focused on maintaining strong balance sheet with long-term objective of sustaining Investment Grade rating with leverage target of 2.5x.

Key Takeaways

Q3 2022

- Comparable sales declined (6.9%) versus Q3 2021; net sales declined (7.2%)
- Gross margin decreased (263 bps) compared to last year due to increased freight costs and product cost inflation, as well as elevated shrink.
- SG&A expense decreased (3.3%) benefiting primarily from the lack of holiday-based retention incentives this year and lapping last year’s Sephora roll out expenses, as well as disciplined expense management which offset wage headwinds.
- Operating margin of 4.7% in Q3 with diluted earnings per share of $0.82.
- Inventory increased 34% to last year, with our Sephora at Kohl’s beauty investments contributing 5 percentage points of the increase; when compared to the third quarter of 2019, inventory was flat.

Q3 2022 Summary
• Kohl’s stores with Sephora continue to outperform the balance of chain, attracting new customers and driving traffic.

• The partnership is attracting new, younger, and more diverse customers. Customers that shop Sephora at Kohl’s visit more frequently than our average customer.

• Approximately 400 Sephora shops opened in 2022 and will open another 250 shops in 2023, taking our total to 850 2,500 sq. ft. shops.

• Working with Sephora to design a smaller footprint concept for our remaining 300 stores, creating a Sephora presence across our entire store base.

• Targeting $2 billion in sales and highly accretive to operating margin.

Sephora at Kohl’s continues to drive impressive results in Q3.
